ALERVET

Dermatological shampoo soothing symptoms of skin irritation for dogs and cats.

HELPS RELIEVE SYMPTOMS OF ITCHING.

REGULATES EXFOLIATION.

RESTORES SOFTNESS OF COAT.

ALERVET is a veterinary dermocosmetic. It restores the softness of the coat and reduces the effects of pruritus and skin flaking and helps to regulate composition of skin microflora. Alervet has excellent moisturizing properties and promotes shiny look of the coat. The addition of gentle washing substances allow for frequent use.

Indications: use on dry skin or on skin prone to seborrhea and/or allergic reactions.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse off with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to needs. For the final rinse, the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, COCAMIDOPROPYL BETAINE, SODIUM CHLORIDE, POLYSORBATE 20, PARFUM, PROPYLENE GLYCOL, CALENDULA OFFICINALIS FLOWER EXTRACT, POLYSORBATE 80, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, C119140, C142090

ALERVET excellence

Anti-itching shampoo with phytosphingosine for dogs and cats.

PHYTOSPHINGOSINE IS A NATURAL COMPONENT OF THE EPIDERMIS AND A MODIFIED PROCERAMID WHICH PARTICIPATES IN SKIN FORMATION. IT ALSO STRENGTHENS THE PROTECTIVE BARRIER OF THE SKIN.

ALERVET excellence is a veterinary dermocosmetic which provides relief for pruritus and inflamed skin. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin.

Indications: skin and coat care in treatment of inflamed skin. Soothing pruritus.

Use: carefully brush your dog or cat before the bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage gently until foam is formed, then rinse it. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly.

-frequency of use: use 2-3 times per week or in accordance with the recommendations of the veterinarian.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, POLYGRICERYL-4 CAPRATE, PEG 40 HYDROGENATED CASTOR OIL, HYDROLYZED WHEAT GLUTEN, PEG 7 GLYCERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, POLYGRICERYL-6 CAPRYLATE, POLYGRICERYL-3 COCATE, POLYGRICERYL-6 RICINOLEATE, MINK OIL, PARFUM, PHYTOSPHINGOSINE HYDROCHLORIDE, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, SODIUM HYDROXIDE

200
ml

ALUDERM

Skin care spray for damaged skin.

REGULATES SKIN MICROFLORA.

FACILITATES SKIN REJUVENATION.

ASTRINGENT PROPERTIES.

ALU-DERM is a veterinary dermo-cosmetic to be used on damaged skin. The product ingredients regulate microflora and aid its regeneration. ALU-DERM has astringent properties.

Indications: helps to regenerate damaged skin.

Use: Use on damaged skin. Spray from the distance of 15-20 cm until the damaged area is completely covered. Hold the container in the upright position. Repeat 2-3 times a day or when needed. Shake well before use.

Precautions: avoid contact with eyes. Use away from open flames (explosion hazard) and in a well ventilated area. Do not pierce. Do not heat. Pressurized metal container. Do not smoke while using the product. Do not inhale the aerosol.

INCI: CI 77000, ISOBUTYL METHACRYLATE, MEK

210
ml

DRY&CLEAN

Dry washing foam.

CLEANS THE SKIN AND COAT WITHOUT USING WATER.

REMOVES SOILING FROM AREAS AFTER SURGICAL TREATMENT.

DOES NOT CAUSE IRRITATION.

DRY&CLEAN foam is suitable for cleaning animal coat and skin without using water. It may be used during travel or before an exhibition. It proves really helpful when removing soiling from the skin and coat after veterinary treatment. Dry & Clean foam helps to thoroughly clean and moisturize the skin and coat. It does not cause irritation. The coat remains soft, shiny and easy to brush.

Indications: coat and skin hygiene.

Use: shake before use. Apply the foam onto a wet glove and gently massage onto the coat. Work in gradually, and keep adding the shampoo until the skin and coat are clean. Wipe the coat with a towel and brush.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE, GLYCERIN, UREA, POLYSORBATE 20, PERFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, LACID ACID

FYTO-DERM

Damaged skin treatment.

HELPS WOUND HEALING.

FYTO-DERM is a veterinary dermo-cosmetic to be used on damaged skin. Product ingredients regulate skin microflora and aid its regeneration. The characteristic odour of the product prevents animals from licking damaged areas.

Indications: treatment of damaged skin.

Precautions: avoid contact with eyes.

Use: clean the damaged skin area and spray 3 times a day.

INCI: DENAT. ALCOHOL, AQUA, PROPYLENE GLYCOL, LAVANDULA ANGUSTIFOLIA (LAVENDER) OIL, ROSMARINUS OFFICINALIS OIL, THYMUS VULGARIS (THYME) OIL, CENTELLA ASIATICA EXTRACT, AESCULUS HIPPOCASTANUM SEED EXTRACT

HEXODERM

Dermatological shampoo for dogs & cats.

REGULATES THE SKIN MICROFLORA.

HEXODERM is a veterinary dermocosmetic which regulates microflora of the skin by stabilising pH and prevents drying by the formation of a protective fat-protein layer. Addition of gentle washing substances allow for frequent use.

Indications: use on dry skin or on skin prone to seborrhea and/or allergic reactions.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse off with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to needs. For the final rinse, the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE 3%, PEG 4 RAPESEEDAMIDE, GLYCERIN, COCOS NUCIFERA OIL, COCOS NUCIFERA FRUIT EXTRACT, GLYCOL DISTEARATE, COCAMIDE MEA, LAURETH-10, POLYSORBATE 20, PARFUM, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

HEXODERM excellence

Shampoo regulating the skin microflora with phytosphingosine and chlorhexidine for dogs and cats.

PHYTOSPHINGOSINE IS A NATURAL COMPONENT OF THE EPIDERMIS AND A MODIFIED PROCERAMID WHICH PARTICIPATES IN SKIN FORMATION. IT ALSO STRENGTHENS THE PROTECTIVE BARRIER OF THE SKIN.

CHLORHEXIDINE HAS BACTERICIDAL AND BACTERIOSTATIC PROPERTIES AGAINST GRAM-POSITIVE AND GRAM-NEGATIVE AND WORKS AS A FUNGISTATIC FOR MOST FUNGAL AND YEAST PATHOGENS. (MALASSEZIA).

Hexoderm excellence is a veterinary dermocosmetic that helps to restore a natural skin microflora. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin.

Indications: skin and coat care in treatment of bacterial inflammation of the skin. Maintaining natural skin microflora. Seborrhea.

Use: carefully brush your dog or cat before the bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage gently until foam is formed, then rinse it. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly.

-frequency of use: use 2-3 times per week or in accordance with the recommendations of the veterinarian.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, POLYGRYCERYL-4 CAPRATE, CHLORHEXIDINE DIGLUCONATE, PEG 40 HYDROGENATED CASTOR OIL, HYDROLYZED WHEAT GLUTEN, PEG 7 GLYCERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, POLYGRICERYL-6 CAPRYLATE, POLYGRICERYL-3 COCATE, POLYGRICERYL-6 RICINOLEATE, MINK OIL, PARFUM, PHYTOSPHINGOSINE HYDROCHLORIDE, TERPINEN-4-OL, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLORISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, SODIUM HYDROXIDE

HEXODERM

Dermatological shampoo for horses.
**REGULATES SKIN MICROFLORA.
MAKES THE COAT SHINY.
MOISTURIZES THE SKIN.**

HEXODERM Hexoderm is a veterinary dermo-cosmetic which regulates skin microflora, helps to maintain pH balance and protects it from drying by leaving a thin fat-protein layer on the skin and coat. Deeply cleansing. It contains gentle washing agents, so it can be used frequently.

Indications: skin care in the course of appropriate inflammation treatment.

Use: shake well before use. Apply the shampoo onto wet coat and skin and then spread evenly over the whole body, wash and rinse. Apply the shampoo on the coat and skin once again and leave for 5-10 minutes and then repeat the actions. Use according to need..

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE, GLYCERIN, HYDROLYZED SILK PROTEIN, PEG 4 RAPESEEDAMIDE, PROPYLENE GLYCOL, COCOS NUCIFERA OIL, COCOS NUCIFERA FRUIT EXTRACT, ACHILLEA MILLEFOLIUM FLOWER EXTRACT, HUMULUS LUPULUS CONE EXTRACT, CHAMOMILLA RECUTITA FLOWER EXTRACT, MELISSA OFFICINALIS LEAF EXTRACT, FOENICULUM VULGARE FRUIT EXTRACT, VISCUM ALBUM FRUIT EXTRACT, ROSMARINUS OFFICINALIS LEAF EXTRACT, HELIANTHUS ANNUUS SEED OIL, PEG-60 HYDROGENATED CASTOR OIL, POLYSORBATE 20, PARFUM, GLYCOL DISTEARATE, COCAMIDE MEA, LAURETH-10, SODIUM CHLORIDE, DMDM HYDANTOIN, METHYLCHLORISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, POTASSIUM SORBATE, SODIUM BENZOATE, CITRIC ACIDS

HYDRA-DERM Spray

Anti-seborrhea and keratosis spray for dogs.
**REGULATES PRODUCTION OF SEBUM.
SOOTHES SYMPTOMS OF IRRITATION AND ITCHING.**

HYDRA-DERM Spray is a veterinary dermo-cosmetic. Juniper oil regulates sebum secretion and prevents excessive skin keratinisation. It relieves skin irritation. Softening effect of glycerine facilitates skin hydration, relieves itching and makes the coat shiny.

Indications: spray the skin and coat in the affected area. Use every day or according to need.

Use: Local hydration and cleansing of skin with a tendency to seborrhoea. Softening the skin in case of localised excessive keratinisation (elbows, hocks, etc.). Keratotic and emollient action on the skin with symptoms caused by general inflammations e.g. allergies, ichthyosis.

INCI: AQUA, GLYCERIN, POLYSORBATE 20, JUNIPERUS OXYCEDRUS WOOD OIL, SILICONE QUATERIUM-17, LAURETH-9, DMDM HYDANTOIN, METHYLCHLORISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

HYDRA-DERM N

Moisturizing liquid for the skin and dry coat for dogs and cats.
PREVENTS DRYNESS OF THE SKIN AND HAIR.

HYDRA-DERM N is a veterinary dermocosmetic which helps to maintain the water and lipid balance in case of dry skin or dandruff (dry seborrhea). It demonstrates water retention properties preventing skin from drying out.

Indications: general or local moisturization of dry or flaky skin. Skin softening in case of local keratosis (elbows, ankle joints, etc.).

Warning: do not apply to wounds. Avoid contact with eyes.

Use: 1) rinse: dilute 20 ml of liquid in 1 litre of water. Apply on skin and coat. Massage and dry. 2) spray: dilute with water at a ratio of 1:2. Apply on skin and coat once a day. Work in and dry.

INCI: AQUA, GLYCERIN, UREA, POLYSORBATE 20, PARFUM, LACTIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

PEROXYVET

Dermatological shampoo for oily skin and coat for dogs & cats.
SUPPORTS REGULATION OF SKIN MICROFLORA AND
SECRETION OF SEBACEOUS GLANDS.
SOOTHES SYMPTOMS OF SKIN IRRITATION.

PEROXYVET is a veterinary dermo-cosmetic for oily skin and coat. It promotes healthy skin microflora and regulates and functioning of the sebaceous glands. It relieves skin irritation and facilitates natural skin regeneration. The addition of gentle washing substances helps to keep skin and coat in good condition.

Indications: oily skin and coat care.

Use: wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, BENZOYL PEROXIDE, CETEARYL ALCOHOL, PEG 4 RAPESEEDAMIDE, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, GLYCERIN, PROPYLENE GLYCOL, TALC, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, SODIUM CHLORIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SEBOLAN

Dermatological shampoo for dogs against itching and dandruff.
RELIEVES SYMPTOMS OF ITCHING.
MAKES SKIN MORE ELASTIC.
REGULATES THE SKIN MICROFLORA.

SEBOLAN is a veterinary dermo-cosmetic. The Juniper Oil has keratolytic and keratoplastic properties. It makes skin more elastic, soothes symptoms of pruritus and regulates the microflora of the skin.

Indications: oily coat, dandruff and skin irritation.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, SODIUM CHLORIDE, POLYSORBATE 20, JUNIPERUS OXYCEDRUS WOOD OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SEBOVET CLEAN

Dermatological shampoo against oily seborrhoea for dogs.
HELPS TO IMPROVE FUNCTIONING OF SEBACEOUS GLANDS.
PREVENTS EXCESSIVE EXFOLIATION OF THE EPIDERMIS.

SEBOVET - CLEAN is a veterinary dermo-cosmetic formulated for dogs with symptoms of greasy seborrhoea. Juniper oil influences sebum secretion and prevents excessive exfoliation.

Indications: greasy coat (greasy seborrhoea), sticky dandruff flakes, red, irritated skin patches.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, SODIUM CHLORIDE, JUNIPERUS OXYCEDRUS WOOD OIL, POLYSORBATE 20, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SEBOVET DRY

Dermatological anti-dandruff shampoo for dogs and cats.
IMPROVES THE SKIN ELASTICITY.
RELIEVES SYMPTOMS OF IRRITATION.

SEBOVET - DRY is a veterinary dermo-cosmetic designed to relieve dandruff in cats and dogs, restoring the healthy balance of the epidermis, increasing elasticity of the skin and relieving irritation.

Indications: dandruff (seborrhoea sicca) characterised by large number of scales. Oily coat with dry and easily damaged hair. The addition of gentle washing substances allow for frequent use.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, SODIUM CHLORIDE, HYDROLYZED KERATIN, PARFUM, POLYSORBATE 20, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SEBOVET excellence

Antidandruff and antiseborrheic shampoo with
phytosphingosine and plants extracts for dogs and cats.

PHYTOSPHINGOSINE IS A NATURAL COMPONENT OF THE EPIDERMIS AND A MODIFIED PROCERAMID WHICH PARTICIPATES IN SKIN FORMATION. IT ALSO STRENGTHENS THE PROTECTIVE BARRIER OF THE SKIN.

PLANTS EXTRACTS REVITALISE DAMAGED, BRITTLE AND DRY COAT. ACT AS ANTI-INFLAMMATORY, ANTI-SEPTIC AND ANTIDANDRUFF AGENTS. REGULATE SEBUM PRODUCTION AND ELIMINATE DRYNESS OF THE SKIN.

Sebovet excellence is a veterinary dermocosmetic with antiseborrheic properties which reduces the formation of skin odors. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The complex of plant extracts contained in the shampoo has strong antiseborrheic and antidandruff properties. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin

Indications: skin and coat care in treatment of the keratotic and seborrheic syndrome; prevention of unpleasant skin odors in animals prone to seborrhoea.

Use: carefully brush your dog or cat before the bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage gently until foam is formed, then rinse it. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly.

-frequency of use: use 2-3 times per week or in accordance with the recommendations of the veterinarian.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, PROPYLENE GLYCOL, POLYGLYCERYL-4 CAPRATE, HYDROLYZED WHEAT GLUTEN, PEG 7 GLICERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, ROSMARINUS OFFICINALIS LEAF EXTRACT, CHAMOMILLA RECUTITA FLOWER EXTRACT, ARNICA MONTANA FLOWER EXTRACT, LAMUM ALBUM EXTRACT, SALVIA OFFICINALIS LEAF EXTRACT, PINUS SYLVESTRIS BUD EXTRACT, NASTURTIUM OFFICINALE EXTRACT, ARCTIUM MAIUS ROOT EXTRACT, CITRUS LIMON PEEL EXTRACT, HEDERA HELIX EXTRACT, CALENDULA OFFICINALIS FLOWER EXTRACT, TROPAEOLUM MAIUS FLOWER EXTRACT, PARFUM, POLYSORBATE 20, PHYTOSPHINGOSINE HYDROCHLORIDE, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, SODIUM HYDROXIDE

EUROWET

SEBOSTOP SPOT-ON

Anti-seborrhea drops with phytosphingosine – for dogs and cats.

HELPS TO ELIMINATE GENERALIZED AND LOCAL KERATOSIS AND SEBORRHEA.

REMOVES EXCESS EARWAX FROM EXTERNAL EAR CANAL.

ELIMINATES UNPLEASANT SKIN ODOUR.

SEBOSTOP SPOT-ON is a veterinary dermocosmetic specially developed for dogs with symptoms of seborrhea. Phytosphingosine aids the reconstruction of the corneal layer of the epidermis, thus reducing seborrhea, and regulates the epidermal microflora. Other components of the product protect the skin against dehydration and soothe irritation.

Indications: kerato-seborrheic skin conditions, general or local. Excess wax in the external ear canal. Unpleasant odour of the skin.

Use: as a supportive treatment in conjunction with anti-seborrheic shampoos SEBOVET CLEAN or SEBOVET excellence in case of:

– generalised kerato-seborrheic syndrome: once a week for four weeks.

After moving aside the fur, apply the contents of the pipette to the skin in 2 or 3 places (in the intercostal and lumbar region):

– dogs and cats of body mass <20 kg - 1 pipette

– dogs of body mass 20-45 kg - 2 pipettes

– dogs of body mass > 45 kg - 3 pipettes

– local kerato-seborrheic syndrome: apply 1 pipette contents to the skin in the area of the change 1 time a week, for 4 weeks

– unpleasant odours: apply as in case of the generalized kerato-seborrheic syndrome, once a week

– excess wax in the external ear canal: the content of ½ - 1 pipette into each ear 2 times a week, for a period of three weeks

INCI: ETHOXYDIGLYCOL, PVP, POLYGLYCERYL-4 CAPRATE, PHYTOSPHINGOSINE

TANADERM

Protective spray for pads.

SUPPORTIVE AND REGENERATING.

COLORLESS.

TANADERM is a veterinary nourishing dermocosmetic soothing damaged foot pads and stimulating renewal of the epidermis. Its ingredients regulate the skin microflora and demonstrate astringent effect.

Indications: renewal of damaged foot pads and soothing of irritation.

Use: after cleaning damaged foot pads spray or spray onto a cosmetic pad and rub the damaged area. Dry. Repeat the treatment twice a day. In case of dogs with sensitive pads use depending on the need - 2-3 times a week. Use also in order to strengthen pads of working dogs and dogs at risk of foot pads damage e.g. during hunting, vacations (hard and sharp surfaces, hot asphalt) and in winter time (protection against harmful effects of salt, snow...) - once a day. Do not allow licking off the product.

INCI: AQUA, GLYCERIN, TRICHLOROACETIC ACID, PROPYLENE GLYCOL, CENTELLA ASIATICA EXTRACT, ALOE BARBADENSIS LEAF JUICE, DIMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

Health promoting products for pets

AMYLAN-AD

Complementary feed for cats and dogs.
IMPROVES DIGESTIVE AND PANCREATIC ISSUES.

AMYLAN restores digestive balance.

Indications: 3-12 weeks, however in case of chronic pancreatic insufficiency, throughout the animal's life.

Use: use before feeding. The required dosage should be divided into portions equal to the number of meals the animal has per day:

Cats and small dogs - 1 piece / day

Medium dogs - 2 piece / day

Large dogs - 3 piece / day

A consultation with a veterinarian is recommended before use.

Ingredients: lactose, calcium carbonate, magnesium salts of organic acids, products from the processing of plants (barley malt diastase)

Additives per 1 kg: zootechnical: Alpha-amylase EC 3.2.1.1 from *Aspergillus oryzae* CBS 585.94

Analytical constituents: crude protein 0.54%, crude fiber 0.4%, crude fat 0.11%, crude ash 7.41%

ARTROPHYL

Complementary feed for dogs and cats.
STRENGTHENS JOINTS.

ARTROPHYL supports proper functioning of joints. It is particularly useful during recovery from bone fractures and for animals with mobility difficulties.

Use: administer directly or mix with food, preferably at the end of a meal

- dogs and cats: 1 piece / 10 kg of body weight / day. Administer twice a day for 8-10 days;

- older dogs: 1 piece / day for 7-15 days a month

The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: dicalcium phosphate, processed animal protein (from swine), products from the processing of plants: *Harpagophytum procumbens* (ground root).

Analytical constituents: crude protein 13.1%, crude fiber 12.3%, crude fat 3.5%, crude ash 30.7%.

Additives per 1 kg: technological: binding and stabilizing agents: E460 microcrystalline cellulose 121g

HEPACHOL

Complementary feed for dogs and cats and farm animals.
SUPPORTS THE FUNCTION OF DIGESTIVE SYSTEM AND LIVER.

HEPACHOL syrup positively affects functioning of the digestive system, aids functioning of the liver. Ingredients of the feed stimulate intestinal peristalsis and bile production as well as secretion of digestive enzymes. This product is recommended in case of overfeeding, decreased appetite, weakness, constipation, vomiting

Use HEPACHOL dogs and cats 125ml: administer directly or mix with food:

- dogs and cats: body weight up to 7kg : 5ml/day;

- body weight 7-12 kg: 10 ml / day;

- body weight 12-18 kg: 15 ml / day;

- body weight 18-25 kg: 20 ml / day;

- body weight > 25 kg: 30 ml / day.

Twice a day for 8-15 days.

Use HEPACHOL for farm animals 1L: mix with food or water:

Horses and adult cattle:

- 5ml/animal/day for 4 months;

- as food supplement during weakness - 60 ml / animal for 7 days;

Calves:

- from the 1st

- as food supplement during weakness - 30 ml / animal for 5 days;

Administer twice a day.

Sheep, goats:

- adult animals: 15-20 ml / animal / day for 5-7 days

- lambs and goat kids: 5-10 ml / animal / day for 5-7 days month of life until slaughter - 2 ml / animal / day

Pigs:

- weaning piglets-1,5ml in 1 l of water or 1ml/animal/day for 7 days

- sows- 50 ml / animal / day for 5 days before and after the birth

- as food supplement during weakness:

piglets- 3-5 ml / animal / day

porkers- 15 ml / animal / day for 5 days

sows- 50 ml / animal / day for 5 days

Broiler chickens, hens, ducks, geese, turkeys, rabbits:

1-2 ml in 1 l of water for 5 days

- fattening of geese: 4 ml / bird / day for 5 days in the middle of the fattening period

Ingredients: sorbitol, propylene glycol, plant processing products: artichoke (*Cynara scolymus*), boldo leaf (*Pneumum boldus*), rosemary (*Rosmarinus officinalis*), dandelion (*Taraxacum officinale*).

Additives in 1 kg: nutritional: amino acids: L-lysine HCl 15.7g.

Analytical constituents: crude protein 2.4%, crude fiber 0%, crude fat 0%, crude ash 0.3%.

SUPPORTS CATS DURING HERPESVIRUS INFECTION

SUPPORTS IMMUNE SYSTEM

Glafelin is a source of L-glutamine (aminoacid), for which demand increases during sickness, stress and increased physical work.

Use:

Adult cats: 2 spoonfuls (5 ml) 2 times a day (morning and afternoon)

Kittens: 1 spoonful (2.5 ml) 2 times a day (morning and afternoon)

Resuspend the powder in a small amount of drinking water. Serve between meals.

Use during viral infection, corticosteroid therapy or in immune system weakness. Use for 3 weeks or until the symptoms stop. Can be used in animals with cardiac or renal insufficiency. Measuring spoon included.

Ingredients: product from *Corynebacterium glutamicum* rich in protein, maltodextrin

Analytical constituents: crude protein: 60% - crude fiber: 0 % - crude fat 0 % - crude ash: 0,5 %

AIDS CONVALESCENCE

During herpesvirus infection, L-glutamine supplementation helps to ease its symptoms and prevents re-infection by stimulating immune system cells proliferation.

IMPROVES METABOLISM ANTI-OXIDATORY EFFECT

L-glutamine is also a compound used the synthesis of glutathione, which has anti-oxidatory properties, protecting the cells from oxidative damage.

KARBOWITAL

Complementary feed for dogs and cats and farm animals.
PROTECTS THE GASTROINTESTINAL LINING.
RESTORES CORRECT GUT FUNCTION.
ABSORBS HARMFUL SUBSTANCES.

KARBOWITAL positively boosts functioning of the digestive system with gastrointestinal disorders. Colloidal carbon solution protects digestive tract mucosa against irritants, absorbs harmful substances and helps to restore proper functioning of intestines.

Use KARBOWITAL dogs and cats 125ml: administer directly or mix with food:

- dogs, cats: 5 ml / 10 kg of body weight, twice a day.

Shake before use.

Use KARBOWITAL farm animals 1L: administer directly or mix with food:

-1ml/kg of body weight twice a day.

Shake before use.

Composition: beet sugar (sucrose), vegetal carbon (charcoal), glycerin, propylene glycol

Analytical constituents: crude protein 0,27%, crude fiber 0,63% crude fat 0,1%, crude ash 0,1%

LESPEWET

Complementary feed for dogs and cats.
URINARY TRACT DISORDERS.

LESPEWET positively affects the urinary system. Due to its diuretic properties, it helps to maintain healthy kidney function.

Use: administer directly or mix with food:

- dogs, cats: 5 ml / 5 kg of body weight / day. Administer twice a day for 10-15 days.

One dosage should not exceed 16 ml.

Composition: glycerin, sodium chloride, products from the processing of plants - Lespedeza capitata.

Additives in 1 kg: nutritional: amino acids, their salts: 3.2.3. L-lysine HCl 20 g.

Analytical constituents: crude protein 1,8%, crude fiber 0%, crude fat 0%, crude ash 0%, humidity 69%,

LESPEWET

Complementary feed for dogs.
URINARY TRACT DISORDERS.

LESPEWET has a positive effect on the urinary system. Due to its diuretic properties, it helps to maintain healthy kidney function.

Use: administer directly or mix with food:

- 1 piece / 6 kg of body weight / day for 5-10 days.

If necessary, the number of tablets can be doubled or used for a longer period of time. The product contains protein of animal origin. It can be fed to animals other than ruminants.

Composition: processed animal protein (from swine), maltodextrin, products from the processing of plants- Lespedeza capitata.

Additives in 1 kg: technological: binding and stabilizing agents: E460 microcrystalline cellulose 292,3g.

Analytical constituents: crude protein 12,6%, crude fiber 29,2%, crude fat 2,2%, crude ash 3,9%

LESPEWET

Complementary feed for cats.
URINARY TRACT DISORDERS.

LESPEWET has a positive effect on the urinary system. Due to its diuretic properties, it helps to maintain healthy kidney function.

Use: administer directly or mix with food:

- 1 piece/3kg of body weight/day.

If necessary, the number of tablets can be doubled or used for a longer period of time.

The product contains protein of animal origin. It can be fed to animals other than ruminants.

Composition: processed animal protein (from swine), maltodextrin, products from the processing of plants- *Lepedeza capitata*.

Additives in 1 kg: technological: binding and stabilizing agents: E460 microcrystalline cellulose 292,3g.

Analytical constituents: crude protein 12,6%, crude fiber 29,2%, crude fat 2,2%, crude ash 3,9%.

mg/tab.

50
tab.

METADIAR

Complementary mineral feed for dogs and cats.
PROTECTS STOMACH AND INTESTINES.

METADIAR is a natural aluminosilicate that has an adsorbing and protective effect on the digestive tract. It covers the surface of gastrointestinal mucosa and protects it against irritants. It is not absorbed from the digestive tract. It binds toxic substances produced by the intestinal flora, preventing their absorption. It also limits the loss of water through the intestine wall.

Use: mix with food or water

- cats with body weight >5 kg: 1/2 of level measuring cup (or level teaspoon), twice a day;

- cats with body weight <5 kg: half of the above mentioned amount;

- dogs: 1 level measuring cup (or level teaspoon) / 10 kg of body weight, twice a day. 1 measuring cup contains ca. 2,5g.

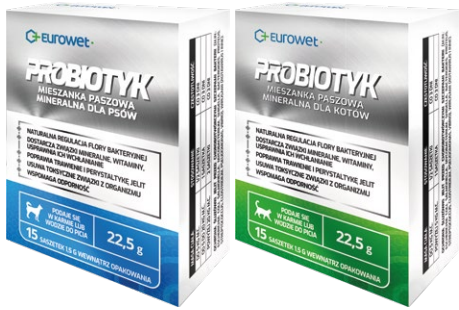

Aluminosilicate contained in the complementary food hinders absorption of other orally administered ingredients, therefore they should be used at least an hour after administering METADIAR.

Composition: magnesium oxide, sodium chloride.

Additives per 1 kg: technological: binding, anti-caking and stabilizing agents: E558 bentonite-montmorillonite 700g, nutritional: mixture of trace elements: E1 iron (iron oxide) 250 mg.

Analytical constituents: calcium 0%, sodium 1,5%, phosphorus 0%

60
gr

PROBIOTIC

Natural regulation of the intestinal flora.
ENHANCES THE PROPER FUNCTIONING OF THE INTESTINAL MICROBIOTA.

SUPPORTS DIGESTION AND PERISTALSIS. REMOVES TOXIC COMPOUNDS FROM THE BODY.

PROVIDES THE BODY WITH MINERALS AND VITAMINS AND IMPROVES THEIR ABSORPTION.

IMPROVES IMMUNITY AND VITALITY.

PROBIOTIC is a combination of health-promoting microorganisms naturally found in the gastrointestinal tract and vitamin, mineral, amino acid concentrate. Biological protection against pathogenic strains of bacteria (e.g.: *Escherichia coli*, *Salmonella*, *Mycobacterium*, *Shigella*, *Bacteroides*, *Proteus*, *Streptococcus*, *Clostridium*, *Pseudomonas*, *Vibrio*), viruses (rotavirus and others).

Precautions: discontinue use in case of intolerance.

Use: suitable for all breeds and age groups cats.

The preparation is administered in feed or drinking water:

- up to 5 kg body weight – ½ sachet every 3 days,

- from 5 to 20 kg body weight – 1 sachet every 3 days

- above 20 kg body weight – 2 sachets every 3 days

Use during: antibiotic therapy, diarrhoea, constipation, digestive disorders, deworming, infectious diseases, immunodeficiency, stress, unpleasant oral odour.

Ingredients: calcium and magnesium carbonate, sucrose.

Additives per 1 kg: sensory: 2b620 L-glutamic acid 3400 mg, 2b17019 L-proline 1568mg, 2b17012 L-leucine 416mg, 2b17005 L-Aspartic acid 1112mg, 2b17020 DL-serine 960mg, 2b17018 L-phenylalanine 760mg, 2b17002 L-alanine 518mg, 2b17034 glycine 320mg. Nutritional: Vitamins: 3a672a vitamin A 400 000IU, 3a671 vitamin D3 40 000IU, 3a300 vitamin C 1 000 mg, 3a314 niacin 800mg, 3a700 vitamin E 400mg, 3a841 calcium D-pantothenate 400mg, 3a vitamin B2 160mg, 3a820 vitamin B1 80 mg, 3a831 vitamin B6 60mg, 3a710 vitamin K3 60mg, 3a316 folic acid 20mg, 3a880 biotin 6mg. Aminoacids: 3c301 DL-methionine 2 000mg, 3.2.3 L-lysine 2 000mg, 3c370 L-valine 1 096mg, 3c410 L-threonine 744mg, 3c362 L-arginine 624mg, 3c440 L-tryptophan 256mg, 3c391 L-cystine 76 mg, 3c3.8.1 L-isoleucine 944mg. Zootechnical: 4b1820 *Bacillus subtilis* C-3102, 4b1715 *Lactobacillus acidophilus* CECT-4529.

Analytical constituents: crude protein 1,88%, crude fiber <0,4%, crude fat <0,3%, crude ash 69,27%, calcium 0,16%, sodium 0,00069%, phosphorus <0,06%.

NUTRIKARD

- SUPPORTS CARDIOVASCULAR SYSTEM
- DELIVERS ENERGY FOR EFFICIENT HEART FUNCTION
- HELPS TO PROTECT CARDIOVASCULAR SYSTEM

NUTRIKARD

Complementary feed for dogs and cats.
SUPPORTS CARDIOVASCULAR SYSTEM.
DELIVERS ENERGY FOR EFFICIENT HEART FUNCTION.
HELPS TO PROTECT CARDIOVASCULAR SYSTEM.

NUTRIKARD Complementary feed for dogs and cats that offers support for cardiovascular system.

Substances contained in the feed positively boost cardiovascular system function. Taurine is a metabolic transmitter, takes part in body detox and aids cardiac muscle contraction. Co-enzyme Q10 that originates from *Saccharomyces cerevisiae* yeast delivers energy needed for efficient heart function and reduces oxidative stress caused by free radicals. Trans-resveratrol from Japanese knotweed has antioxidative properties, improves microcirculation in circulatory system helps to prevent formation of clots in blood vessels. Hydroxytyrosol from olive leaves prevents aggregation of platelets, promotes healthy blood flow in coronary system and has beneficial effect on blood pressure.

Use:

- dogs and cats – 0,5 piece up to 5 kg b.w. – once per day
- dogs and cats – 0,5 piece from 5 kg to 10 kg b.w. – twice per day
- dogs – 1 piece from 11 to 20 kg b.w. – twice per day
- dogs – 1,5 piece from 21 to 30 kg b.w. – twice per day
- dogs – 2 pieces from 31 to 45 kg b.w. – twice per day

In prolonged periods of use please consult a veterinarian.

Ingredients: magnesium carbonate, processed animal protein (from swine), maltodextrin, brewers' yeast (from *Saccharomyces cerevisiae*), products from the processing of plants – from Japanese knotweed (*Polygonum cuspidatum*) roots and olive (*Olea europaea*) leaves.

Additives per 1 kg: Nutritional: Vitamins, provitamins and chemically well-defined substances having a similar effect: 3a370 taurine 283 g.

Analytical constituents: crude protein 31%, crude fiber 20,5%, crude oils and fats 4,0%, crude ash 8,1%, phosphorus 0,20%, sodium 0,24%, potassium 0,20%, magnesium 3,0%

SLIMVET

Complementary feed for dogs and cats.
SUPPORTS HEALTHY DIGESTIVE SYSTEM AND LIVER.
SLIMMING EFFECT.

Boosts metabolism and helps to reduce excess body weight overweight and overfed dogs and cats. Protects from conditions such as fatty liver and liver cirrhosis. Supports anti-inflammatory and anti-oxidative body functions and helps to reduce free radical activity.

Use for dogs and cats 60 tab.: 1 pc Twice a day per 5 kg of body weight. The preparation is to be administered directly (tasty) or to be mixed with the feed. In cases of heart and kidney insufficiency, it may be applied together with a dietetic feed.

Initial application period: 6 months. It is recommended to consult a veterinarian before application.

Ingredients: maltodextrin, dicalcium phosphate, tricalcium phosphate, animal by-products (of pig origin), magnesium oxide, calcium carbonate.

Analytical constituents: crude oils and fats 24.78%, crude fibre 23.6%, crude protein 10.8%, crude ash 8.2%, moisture 3.38%, magnesium 3.08%, phosphorus 0.52%, calcium 0.02%, sodium 0.24%.

Additives in 1 kg: firming agents and stabilizers: E460 microcrystalline cellulose, vitamins and provitamins: 3a700 vitamin E 60 000 IU, compounds of trace elements: E6 zinc (zinc oxide) 5 g, antioxidants: E321 butylated hydroxytoluene (BHT) 16 mg, Silibinin and Phosphatidylcholine Complex - 125g/kg.

Use for dogs 30 tab.: 1 pc Twice a day per 30 kg of body weight. The preparation is to be administered directly (tasty) or to be mixed with the dog feed. In cases of heart and kidney insufficiency, it may be applied together with a dietetic dog feed.

Initial application period: 6 months. It is recommended to consult a veterinarian before application.

Ingredients: Maltodextrin, dicalcium phosphate, tricalcium phosphate, animal by-products (of pig origin), magnesium oxide, calcium carbonate.

Analytical constituents: crude oils and fats 32.31%, crude fibre 14.16%, crude protein 10.91%, crude ash 4.86%, moisture 3.30%, magnesium 0.97%, phosphorus 0.69%, calcium 0.02%, sodium 0.24%.

Additives in 1 kg: firming agents and stabilizers: E460 microcrystalline cellulose, vitamins and provitamins: 3a700 vitamin E 77 000 IU, compounds of trace elements: E6 zinc (zinc oxide) 6.41 g, antioxidants: E321 butylated hydroxytoluene (BHT) 16 mg, Silibinin and Phosphatidylcholine Complex - 192 g/kg.

STRESNAL

Complementary feed for dogs and cats.
EASES STRESS.
CALMS DOWN.

STRESNAL contains plant ingredients that have a calming effect on animals. They reduce anxiety, fear and aggression as well as help to relieve muscle tension. The product has a beneficial influence on dogs and cats during their owner's absence, competitions, shows, journeys and puppy depression.

Use: administer directly or mix with food:

- dogs and cats: 2ml/5kg of body weight/day.

Administer 2-3 times a day.

In case of planned travel, administer 30-60 minutes before the journey.

Composition: glycerin, products of plant processing from: Eschscholtzia californica (California poppy), Crataegus oxyacantha (hawthorn or mayflower), Passiflora incarnata (maypop, also called Purple/ True Passionflower), Hypericum perforatum (St John's wort).

Additives per 1 kg: nutritional: amino acids: 3.2.3. L-lysine HCl 20 000 mg.

Analytical constituents: crude protein 1,14%, crude fiber 0,4%, crude fat 0,11%, crude ash 0,63%, humidity 71,8%.

ULTRADIAR

Complementary feed for dogs and cats.
RELIEVES STOMACH AND INTESTINAL DISORDERS.

ULTRADIAR helps to maintain the proper function of the digestive system, supports it in gastrointestinal disorders. An addition of aluminosilicate has a beneficial influence on the stomach in case of excessive secretion of hydrochloric acid. Plant products facilitate functioning of the digestive system and help to restore proper gastrointestinal peristalsis.

Use: administer directly or mix with food:

- dogs and cats: 1 pc / 10 kg of body weight twice a day for 3-5 days. The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: processed animal protein (from swine), products from the processing of plants (Vaccinium myrtillus- common bilberry or blue whortleberry), flour from dried carob pods, micronised maltodextrin.

Additives per 1 kg: technological: stabilizing agents: E558 bentonite - montmorillonite 200 mg.

Analytical constituents: crude protein 11,3%, crude fiber 24,2%, crude fat 3,9%, crude ash 29,2%

UROMIL

Complementary feed for dogs.
FALSE PREGNANCY.

UROMIL reduces effects of false pregnancy in bitches and facilitates the return of engorged mammary glands to their proper state.

Use: Administer directly or mix with food:

- 1 pc/ 10 kg of body weight twice a day for 10 days. The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: dicalcium phosphate, processed animal protein (from swine), products from the processing of plants: Hieracium pilosella (mouse-ear hawkweed).

Analytical constituents: crude protein 11,2%, crude fiber 43,6%, crude fat 2,1%, crude ash 12,5%.

Vitamin B12

Complementary feed for dogs and cats.
IMPROVES LIVER, PANCREAS AND BOWEL FUNCTION.

VITAMIN B12 feed supplement for dogs and cats designed to restore B12 reserve in the liver. Its deficiency is often observed in pancreatic insufficiency, chronic inflammatory bowel disease, liver and bile ducts inflammation.

Excess vitamin B12 is excreted in urine, staining it red.

Use: feed directly or crushed and mixed into regular feed.

- up to 10 kg b.w. - 1/2 pc / day,
- from 10 to 20 kg b.w. - 1 pc / day,
- over 20 kg b.w. - 2 pc / day.

Product is a tasty treat, thus pets willingly accept it.

Recommended usage period: 3 months. Following this period consult a veterinarian and arrange vitamin B12 level test in order to establish maintenance dose. Store in cool and dry place, away from animals. Contains protein of animal origin, not suitable for ruminants.

Ingredients: magnesium carbonate, processed animal protein.

Feed additives per 1 kg: vitamin B12 960 000 g – an equivalent of 500 g per 520 mg tablet.

Analytical ingredients: raw protein 11,8%, raw fiber 45,2%, raw fat 4,1%, raw ash 16,8%.

Zn-Zinc

Complementary feed dogs and cats.
DELIVERS ZINC FOR SKIN AND COAT.

Zn-Zinc complementary feed that improves: skin function, keratinization process, development and functioning of sebaceous glands and coat quality. The product is a tasty treat thus animals consume it willingly.

Recommendations: Administer in increased hair loss, brittle, matt and dry coat. Protects the liver from increased accumulation of copper.

Use: Administer at least 1 hour before feeding.

- skin and coat issues: dogs and cats - ½ piece per 10 kg b.w. – 2 times a day for 4 weeks

- liver protection: dogs and cats – 1 piece per 10 kg b.w. – 2 times a day for 4 weeks

Caution: in prolonged periods of use consult a veterinarian.

Can be used in dogs and cats with cardiac and renal insufficiency.

Ingredients: calcium carbonate, processed animal protein (of swine origin).

Additives per 1 kg: nutritional: trace elements: zinc gluconate 64,66 g.

Analytical constituents: crude protein 11,8%, crude fiber 23,7%, crude oils and fats 4%, crude ash 12,4%.

CHONDROWIT JOINTS

Complementary feed for dogs and cats.
PROTECTION AND STRENGTHENING OF JOINTS.

CHONDROWIT supports the functions of canine and feline articular cartilage. It has a beneficial effect on joints, as their flexibility decreases with age (7-8 years). The ingredients of the product help to maintain joints flexibility and full movement capability in large dogs and cats, obese animals and animals under substantial physical strain (races, hunting etc.). It also improves mobility in older dogs. Moreover, CHONDROWIT is advantageous during recovery from bone and joint surgeries.

Use: administer directly or mix with food:
- 1 capsule / 10 kg of body weight / day. After a month reduce the dosage by half and administer for the next 2 months;
- dogs and cats up to 10 kg of body weight, after a month of using, give 1 capsule every other day.
Use occasionally, when the need arises.
The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: fish gelatin, glycerin, glucosamine, chondroitin sulfate.
Analytical constituents: crude protein 18,9%, crude fiber 0%, crude fat 0,5%, crude ash 18,9%

Composition: plant oils and fats (borage oil- Borago officinalis and maize-germ oil- Zea mays), fish oil.
Additives per 1 kg: technological: antioxidants: E306 natural tocopherol extracts 1800 mg, nutritional: vitamins: E672 vitamin A 124 800 IU, 3a700 vitamin E 24 000 IU.
Analytical constituents: crude protein 0,5%, crude fibre 0%, crude fat 99,0%, crude ash 0,2%.

MILVET

Formula for puppies and kittens.
BOTTLE + TEATS INSIDE THE PACK.
REPLACES THE MOTHER'S MILK.
CAN BE ADMINISTERED STRAIGHT AFTER BIRTH.
SUPPLIES ENERGY, VITAMINS AND MINERALS.

MILVET is a complete milk substitute, which perfectly replaces natural breast milk. It provides easily digestible protein and fat. Feeding milk replacer to nursing dogs and cats can increase production of their own milk. It provides puppies and kittens with necessary energy, vitamins and other nutrients. **MILVET** completely covers requirements for minerals and vitamins of growing animals. It is easy to digest and can be fed straight after birth. It is intended for puppies and kittens reared without mothers, in case of insufficient amount of milk produced by the mother, as a feed supplement during the weaning process, during the period of convalescence or increased effort (e.g. hunting).
Use: determine the portion of the preparation according to the table on the packaging. Pour one portion of the preparation into the bottle, then add two portions of boiled water at about 60 ° C - 1: 2 ratio. Mix vigorously. Cool to 37 ° C. For the first 15 days of life, feed through a teat and then switch to a bowl. After the 4th week of life, during the gradual transition to solid feed, add powder to the feed.

Liczba łyżeczek proszku do przygotowania 1 posiłku					
Age	Kittens and small dog breeds	Medium dog breeds	Large dog breeds	Largest dog breeds	Feeds per day

Ingredients: skimmed milk powder, milk fat, whey protein concentrate, whey powder, soy lecithin.
Analytical ingredients: crude protein 30.0%, crude fiber 0.0%, crude fat 20.0%, crude ash 6.7%.
Additives per 1 kg: Nutritional: Vitamins: 3a672a vitamin A 25 000 IU, 3a671 vitamin D3 2 000 IU, 3a700 vitamin E 60 mg, 3a820 vitamin B1 20 mg, 3a vitamin B2 40 mg, 3a831 vitamin B6 15 mg, 3a vitamin B12 (cyanocobalamin) 0,08 mg, 3a841 calcium D-pantothenate 46 mg, 3a316 folic acid 0,8 mg, 3a314 niacin 25 mg, 3a890 choline chloride 1000 mg, Trace elements: 3b108 iron(II) chelate of glycine hydrate 100 mg, 3b201 potassium iodide 1,6 mg, 3b405 copper(II) sulphate pentahydrate 15 mg, 3b503 manganous sulphate monohydrate 66 mg, 3b603 zinc oxide 160 mg, 3b801 sodium selenite 0,25 mg, Amino acids: 3c301 DL-methionine 2000 mg.

WITA-TONYL

Complementary feed for dogs and cats.
GROWTH.
PREGNANCY.
NURSING.
CONVALESCENCE.

WITA-TONYL provides vitamins necessary to meet nutritional requirements of small animals. The product is intended to be used during growth, pregnancy and nursing. It has a beneficial influence on older, tired or convalescing animals and in case of poor appetite. Hydrolysed liver extract provides B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, **WITA TONYL** positively affects functioning of the body. Vitamins improve metabolism, support immune processes of the body, aid regeneration of epithelium and skin, participate in bone mineralization and regulate calcium and phosphorus balance.

Use: mix with food:
- dogs and cats up to 5 kg - 5 drops / day
- dogs 5 - 15 kg - 10 drops / day
- dogs 15 - 30 kg m.c. - 15 drops / day
- dogs 30 - 45 kg m.c. - 20 drops / day
- dogs above 45 kg m.c. - 25 drops / day
1 ml contains 20 drops The product contains protein of animal origin. It can be fed to animals other than ruminants.

Composition: propylene glycol, processed animal protein.
Additives per 1 kg: Nutritional: vitamins: 3a672a vitamin A 10 000 000 IU, 3a670a vitamin D3 1 000 000 IU, 3a700 vitamin E 30 000 IU, 3a820 vitamin B1 1 800 mg, 3a vitamin B2 (riboflavin) 2 000 mg, 3a841 calcium D-pantothenate 6 000 mg, E3a831 vitamin B6 6 000 mg, 3a vitamin B12 (cyanocobalamin) 30 mg, 3a314 niacin 30 000 mg, Technological: emulsifiers: E484 glyceryl polyethyleneglycol ricinoleate 135 g, Preservatives: E200 sorbic acid 1,5 g, E330 citric acid 0,5 g.
Analytical components: crude protein 5,6%, crude fiber 0%, crude fat 6,2%, crude ash 0,3%, moisture content 71,6%.

WITA-TONYL

WITA-VET Skin and coat regenerator
Complementary feed for dogs and cats.
SHINY COAT.
HEALTHY SKIN.

WITA-VET Skin and coat regenerator for dogs and cats helps to improve the quality of coat. It is particularly recommended during shedding periods. It also helps to compensate for nutritional deficiencies and satisfies the needs of convalescing animals. An addition of hydrolysed liver extract provides B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, WITA-VET RSS positively boosts body functions. Vitamins support immunological and metabolic processes of the body.

Use:
- dogs and cats < 5 kg of body weight – 5 drops/day
- dogs and cats 5-15 kg of body weight – 10 drops/day
- dogs 15-30 kg of body weight - 15 drops/day
- dogs 30-45 kg of body weight – 20 drops/day
- dogs > 45kg of body weight – 25 drops/day
1 ml contains 20 drops.

Ingredients: propylene glycol, processed animal protein.
Additives per 1 kg: nutritional: vitamins: 3a672a Vitamin A 2g, 3a880 biotin 0,5 g, 3a831 vitamin B6 4 g, 3a314 nicotinic acid 8 g, 3a841 calcium D-pantothenate 8 g, E6 zinc gluconate 0,3 g.
Analytical elements: crude protein 0.3%, crude fiber 0%, crude fat 0.9%, crude ash 0.1%, moisture content 87.4%.

WITA-VET joints

Complementary dog feed.
PROTECTION AND STRENGTHENING OF JOINTS.

Glucosamine strengthens the joints, as it is involved in the cartilage metabolism (joint mobility). Chondroitin reduces the activity of enzymes destroying the joint cartilage (anti-inflammatory properties). Methylsulfonylmethane enhances the elasticity of joint cartilage. Vitamin C is involved in collagen synthesis in the joint cartilage. Magnesium is involved in protein and amino acid metabolism. Your dog's joint endurance decreases over the years (7-8). This complementary dog feed strengthens the joints, as its ingredients help maintain their elasticity and mobility. Used regularly, the product improves mobility in senior, overweight dogs, or those which are exposed to intense physical activity (hunting, work, races, etc.). To be administered during the recovery periods, after bone and cartilage surgeries.

Use:
1 pc per 15 kg of body weight / day. To be administered for 30 days. Afterwards, the dose is to be reduced to a half and be administered throughout the following 15 days. Apply for short periods, or when necessary.

Ingredients: processed animal protein (from swine), maltodextrin, calcium carbonate, magnesium salts of organic acids (magnesium stearate), glucosamine, chondroitin sulphate.

Analytical constituents: crude protein 11.9%, crude fiber 16.7%, crude fat 3.1%, crude ash 9.0%.

Additives per 1 kg: nutritional: vitamins: E300 vitamin C (L-Ascorbic acid) 30g, methylsulfonylmethane 90 g.

WYZIUM

Complementary feed for dogs and cats - eyesight improvement.
DELAYS LENS OPACIFICATION.
PROTECTS SIGHT ORGANS.
MAINTAINS RETINA FUNCTIONS.

WYZIUM® contains taurine which supports the proper functioning of both the retina and lens. Turmeric extract (Phytosome®) protects eyes due to its anti-inflammatory properties. Carotenoids (lutein and zeaxanthine) help maintain and improve the eyesight. Superoxide dismutase (SOD B Extramel®) supports the natural processes that protect the sight organ. Vitamins E, C, and oligoelements (zinc, selenium and chromium) facilitate the metabolic processes in the eye.

Use:

Dogs, cats	Pieces	Dosage
under 5 kg	½	every second day
5kg to 10kg	½	per day
11kg to 18kg	1	per day
19kg to 25 kg	1½	per day
26kg to 35 kg	2	per day
over 36kg	2½	per day

Ingredients: calcium carbonate, processed animal protein (from swine), brewer's yeast (*Saccharomyces cerevisiae*), crude lecithin (phospholipids), products from processing of spices and seasonings - turmeric, vegetable oil and fat - palm oil, products from processing of plants- from *Tagetes erecta*, products and by-products from processing fresh fruits and vegetables – concentrated melon juice.
Additives in 1 kg: Nutritional: Vitamins: 3a300 vitamin C 52,36 g, 3a700 vitamin E 41,88 g, 3 a370 taurine 157 g. Trace elements: 3b813 selenomethionine 10,47 mg, 3b603 zinc oxide 5,6 g. Technological: antioxidants: E321 butylhydroxytoluene (BHT) 72 mg.
Analytical constituents: crude protein 22.3%, crude fiber 12.3%, crude fat 7.6%, crude ash 25.4%

Lutein - natural antioxidant.
Improves vision.

Taurine - protects eyesight from harmful UV radiation.

Phytosome Turmeric - anti-inflammatory. Anti-allergic.

SOD B Extramel®

SOD B Extramel - activates natural processes that protect eyesight.

Vitamin C + vitamin E - participate in hormone synthesis. Stop free radical formation.

Cynk

Zinc - transforms vitamin A into light-absorbing dye.

SElen

Selenium - helps to eliminate toxic metabolites.

CHROM

Chromium - supports metabolic processes connected to eyesight.

Eye and ear care products

Otiseptol – helps to remove dirt from external ear canal and ear flap. Eliminates unpleasant odour in case of ear infection, earwax or dirt accumulation.

Akaryl żel – helps to eliminate ear parasites. Soothes irritation of external ear canal and ear flap. Facilitates skin regeneration.

Optex - soothes conjunctiva irritation and facilitates natural moisturization of eyes and eyelids. Helps to eliminate contamination from conjunctival sac.

Vetaseptol – soothes conjunctiva irritation, limits nose discharge and reduces eyelid swelling.

Product	Properties	Volume	 Dogs	 Cats	 Liquid/Emulsion

AKARYL GEL	Helps to fight ear parasites.	25 ml	✓	✓	✓
OPTEX	Removes dirt from conjunctival sac. Moisturizes eyes and eyelids.	100 ml	✓	✓	✓
VETASEPTOL	Soothes conjunctiva and nose mucosa irritation.	15 ml	✓	✓	✓

OTISEPTOL

Ears cleansing lotion for dogs & cats.
REMOVES EARWAX.
SOFTENS CALLOUSED SKIN.

Otiseptol is a veterinary dermo-cosmetic containing ingredients that help to remove earwax from the external ear canal ear flap (pinna). They soften rough epidermis and thus make its removal easier and regeneration faster.

Indication: hygiene of external ear canal and ear flap.

Use: apply 5-30 drops (depending on the size of the pet) of the emulsion into the ear canal. Distribute, gently rubbing the base of the ear and then remove excess liquid with a swab. At the same time, clean the interior of the ear flap. Repeat until the ear is fully cleaned. Depending on the amount of earwax, use once or twice a week.

INCI: AQUA, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, BENZALKONIUM CHLORIDE, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

AKARYL gel

Ear care emulsion for dogs and cats.
SOOTHES IRRITATION OF EXTERNAL EAR CANAL. PROMOTES
NATURAL REGENERATION OF EPIDERMIS AND HELPS TO
ELIMINATE PARASITES.

AKARYL gel soothes irritation of external ear canal. Promotes natural regeneration of epidermis and helps to eliminate parasites.

Indication: hygiene of external ear canal and ear flap (pinna).

Use: apply a few drops into the external ear canal and ear flap. Gently rub the base of the ear. Remove excess emulsion and wash the ear again. Apply once a day for 7 days. After a week-long break, use again for the next 7 days..

INCI: AQUA, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, ALLANTOIN, JUNIPERUS COMMUNIS FRUIT OIL, LAVANDULA ANGUSTIFOLIA OIL, ORIGANUM (THYMUS CAPITATUS) ESSENTIAL OIL, CHAMOMILLA RECUTITA FLOWERS OIL, MENTHA PIPERITA OIL, EUCALYPTUS RADIATA ESSENTIAL OIL, THYMUS VULGARIS FLOWER/LEAF OIL, ROSMARINUS OFFICINALIS LEAF OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

OPTEX

Washing solution for eyes and eyelids.
SOOTHES SYMPTOMS OF IRRITATION.
MOISTURIZES EYES AND EYELIDS.

OPTEX is a veterinary dermo-cosmetic that soothes conjunctival irritation and helps to retain natural moisture in the eyes and eyelids. It also helps to remove the impurities accumulated in the conjunctival sac.

Indication: eye and eyelid hygiene.

Use: moisten a swab and carefully wet the eyes or apply a few drops of the liquid into the conjunctival sac. Remove its excess. Wipe the eyelids. Use when necessary, even every day.

INCI: AQUA, CENTAUREA CYANUS FLORAL WATER, SODIUM CHLORIDE, BENZALKONIUM CHLORIDE, SODIUM METHYL PARABEN, ORTOFOSFORIC ACID, CI 42090

VETASEPTOL

Cleansing drops for eyes and nose for dogs and cats.
EYES AND NOSE HYGIENE.
REMOVAL OF IMPURITIES FROM THE CONJUNCTIVAL SAC.
ELIMINATES IRRITATION IN CONJUNCTIVITIS AND NASAL MUCOSA.

VETASEPTOL drops that relieve conjunctival irritation, reduce nasal discharge and soothe swollen eyelids (palpebral edema). They help to retain natural moisture in the eyes and eyelids and aid in the removal of dirt accumulated in the conjunctival sac.
Indication: maintaining eye and nose hygiene, removing dirt from the conjunctival sac, soothing irritation of the conjunctiva and nasal mucosa.
Use: apply 1-2 drops into the conjunctival sac or nose, 4-6 times a day.

INCI: AQUA, POTASSIUM GLUCONATE, MANNITOL, CHLORHEXIDINE DIGLUCONATE, DISODIUM EDTA

VETINET

Hygienic soap.
WASHING HANDS BEFORE AND AFTER CONTACT WITH ANIMALS OR FOOD.
ESSENTIAL FOR ANIMAL HYGIENE BEFORE TREATMENTS.
HYGIENE IN THE VET SURGERY AND VETERINARY EQUIPMENT.

VETINET regulates skin microflora. It has good cleaning properties, does not irritate skin, mucous membrane or wounds.
Indication: washing hands before and after contact with an animal, washing animals before a surgery, washing hands before contact with food.
Use: distribute on desired area without water for few minutes, then rinse with water.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE, PEG 4 RAPESEEDAMIDE, GLYCERIN, SILICONE QUATERIUM- 17, LAURETH-9, POLYSORBATE 20, EUCALYPTUS RADIATA ESSENTIAL OIL, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CI42090

VETINET

Hygienic cleaning liquid for litter boxes, kennels and other pet accessories.
EASY TO USE.
EFFECTIVE.

VETINET Eucalyptus effectively eliminates unpleasant odours. Readily removes organic and inorganic contaminants. Presents excellent cleaning properties. Recommended for use on litter boxes, kennels, pens, travel carriers and other pet accessories.
Usu: remove all loose objects from the area to be cleaned. Spray the product all over the surface. Leave on for several minutes. Wipe off remaining product with a damp cloth, Repeat if needed.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, CHLORHEXIDINE DIGLUCONATE, POLYSORBATE 20, EUCALYPTUS RADIATA ESSENTIAL OIL, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CI19140, CI42090

VETIMED – hand disinfection liquid

VIRUCIDAL, BACTERICIDAL AND FUNGICIDAL
EFFECTIVE SURFACE DISINFECTION
FAST ACTION
EASY APPLICATION

Disinfecting liquid with virucidal, bactericidal and fungicidal properties. Didecyltrimethylammonium chloride kills 99,9% of viruses, bacteria and fungi
Use: wash hands with a small amount of product for 30-60 sec. Rinse with water.

INCI: Active substance: Didecyltrimethylammonium chloride 0,15 g/100 g

500
ml

VETIMED – hand sanitising gel

VIRUCIDAL, BACTERICIDAL AND FUNGICIDAL
EFFECTIVE SURFACE DISINFECTION
FAST ACTION
EASY APPLICATION

Effective hand disinfection without the use of water. High ethanol content, chlorhexidine boosts biocidal effect. 70% ethanol, chlorhexidine.
Use: rub a small amount onto hands for 30 seconds, paying great attention to the area around nails.

INCI: Active substances: ethanol – 70 g/100 g; D-gluconic acid, compound with N,N"-bis(4-chlorophenyl)-3,12-diimino-2,4,11,13-tetraazatetradecanediimidine (2:1)0,5 g/100 g.

500
ml

VETIMED – surface disinfection liquid

VIRUCIDAL, BACTERICIDAL AND FUNGICIDAL
EFFECTIVE SURFACE DISINFECTION
FAST ACTION
EASY APPLICATION

Surface disinfection liquid for surfaces other than for food preparation. Didecyltrimethylammonium chloride kills 99,9% of viruses, bacteria and fungi
Use: distribute evenly on surface to be disinfected. Leave for several minutes. Wipe with a dry cloth. Do not rinse.

INCI: Active substance: Didecyltrimethylammonium chloride 0,85 g/100 g

STOMA GEL	Dental and oral hygiene.	50 g	✓	✓		✓

STOMA ZYM

Dental chews for medium and large dog breeds.
CLEANS TEETH SURFACE.
PREVENTS DENTAL PLAQUE AND TARTAR FORMATION.
ELIMINATES BAD BREATH.
BITE RESISTANT.

STOMA ZYM dental chews are intended for regular chewing, which facilitates cleaning of teeth surface. Chewing stimulates production of the saliva, which contains agents preventing from dental plaque and tartar formation. Chews eliminate bad breath as well. Offer after feeding, every day or alternately with STOMA-gel toothpaste. Well-used chews should be disposed of. Store below 25°C, protect from moisture.

Ingredients: dried bovine skin strips, 100% natural.
Analytical constituents: crude protein 89.9%, crude fiber < 0.2%, crude fat 1.93%, crude ash 0.47%

STOMA gel

Toothpaste for dogs and cats.
HEALTHY TEETH.
FRESH BREATH.

Stoma - gel is a veterinary dermo-cosmetic intended for teeth care. An addition of chlorhexidine prevents the development of undesirable bacterial microflora in the oral cavity, eliminates bad breath and keeps the teeth and gums clean. Due to the added flavouring, pets easily tolerate its application. Abrasives prevent the development of tartar and, when combined with feed particles, form an emulsion which removes it from the tooth surface.

Indication: oral hygiene.
Use: 1-2 time(s) a week or every day, depending on the condition of teeth. Apply the paste using a toothbrush, finger or gauze. Rub in gently. Do not rinse.

INCI: AQUA, CALCIUM CARBONATE, CETEARETH-33, ALUMINUM SILICATE, CHLORHEXIDINE DIGLUCONATE, TITANIUM DIOXIDE, PARFUM

SHAMPOO FOR WHITE AND LIGHT COLOUR COATS

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
BRIGHTENS COLOUR.
+ CHAMOMILE, NETTLE, VITAMIN E.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts reduce hair loss and dandruff formation. Chamomile extract brings out the natural colour of the hair.

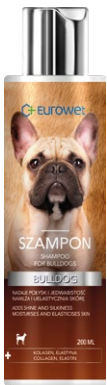

Indications:

For light colour coat and skin care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, lather, wash and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PROPYLENE GLYCOL, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, CHAMOMILLA RECUTITA FLOWER EXTRACT, URTICA DIOICA LEAF EXTRACT, TOCOPHEROL ACETATE, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

SHAMPOO FOR BULLDOGS

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
MOISTURISES AND MAKES SKIN MORE ELASTIC.
+ COLLAGEN, ELASTIN.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft and shiny. Collagen regenerates, restores the skin's elasticity and hydration. Elastin soothes irritations, supports the processes of regeneration and reconstruction of the epidermis. It has a strong moisturizing effect.

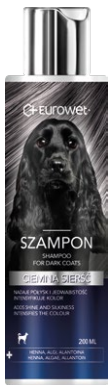

Indications:

Coat and skin care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, COLLAGEN, HYDROLYZED ELASTIN, PEG 4 RAPESEEDAMIDE, ALLANTOIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SHAMPOO FOR DARK COATS

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
INTENSIFIES THE COLOUR.
+ HENNA, ALGAE, ALLANTOIN.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts soften and elasticize the epidermis. Henna extract enhances the natural colour of the hair.

Indications:

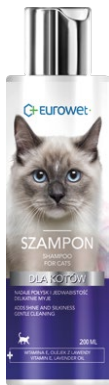

For dark coats and skin care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, LAWSONIA INERMIS LEAF EXTRACT, PORPHYRA UMBILICALIS EXTRACT, CAESALPINIA SPINOSA GUM, SILICONE QUATERIUM-17, LAURETH-9, POLYSORBATE 20, PARFUM, ALLANTOIN, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

SHAMPOO FOR CATS

Shampoo for cats.
ADDS SHINE AND SILKINESS.
GENTLE CLEANSING.
+ VITAMIN E, LAVENDER OIL.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Additional ingredients moisturize the skin and coat.

Indications:

Coat and skin care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush.

INCI: AQUA, SODIUM LAURETH SULFATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, COCAMIDOPROPYL BETAINE, SODIUM CHLORIDE, PARFUM, TOCOPHEROL, SILICONE QUATERIUM-17, LAURETH-9, LAVANDULA ANGUSTIFOLIA OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACIDS

SHAMPOO FOR MALTESE

Shampoo for dogs.
ADDS SHINE AND SILKINESS
BRIGHTENS THE COLOUR.
+ CHAMOMILE, NETTLE, VITAMIN E.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts reduce hair loss and dandruff formation. Chamomile extract brings out the natural colour of the hair.

Indications:

Long hair care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, lather, wash and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PROPYLENE GLYCOL, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, CHAMOMILLA RECUTITA FLOWER EXTRACT, URTICA DIOICA LEAF EXTRACT, TOCOPHEROL ACETATE, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

ANTI SKIN-IRRITATION SHAMPOO

Shampoo for dogs and cats.
SOOTHES SYMPTOMS OF IRRITATED SKIN
REDUCES FLAKING
+ WITH JUNIPER OIL

The shampoo has very good cleansing properties and is easy to rinse off. The juniper oil soothes irritated skin and reduces flaking.

Indications:

Coat and skin care.

Use:

For external use only. Shake well before use. Wet the coat, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, UREA, PROPYLENE GLYCOL, ALCOHOL DENAT., ACHILLEA MILLEFOLIUM FLOWER EXTRACT, HUMULUS LUPULUS EXTRACT, MELISSA OFFICINALIS LEAF EXTRACT, FOENICULUM VULGARE FRUIT EXTRACT, CHAMOMILLA RECUTITA FLOWER EXTRACT, VISCUM ALBUM EXTRACT, SODIUM CHLORIDE, POLYSORBATE 20, JUNIPERUS OXYCEDRUS WOOD OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

MOISTURISING SHAMPOO

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
MOISTURISES AND MAKES SKIN MORE ELASTIC.
+ ALOE VERA, PROTEINS, SORBITOL.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extract and sorbitol act as moisturisers and elasticise the epidermis.

Indications:
Care for dry skin and coat.

Use:
For external use only. Shake well before use. Wet the fur and skin, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with lukewarm water, dry and brush. After washing use the moisturizing fluid HYDRA-DEMN N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, SORBITOL, ALOE BARBADENSIS LEAF JUICE, PEG 4 RAPESEEDAMIDE, HYDROLYZED WHEAT GLUTEN, PEG-7 GLYCERYL COCATE, POLYQUATERNIUM-7, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, CITRIC ACIDS, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE.

SHAMPOO PROTECTIVE AGAINST FLEAS AND TICKS

Shampoo for dogs and cats.
SUPPORTS PROTECTION AGAINST FLEAS AND TICKS.
NATURALLY SAFE.
+ NEEM OIL.

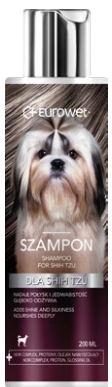

Shampoo helps to protect dogs and cats against fleas and ticks. It also has excellent cleansing properties.

Indications:
Coat and skin care.

Warning:
While applying the product, use protective gloves. Avoid contact with eyes. If product accidentally gets into eyes, rinse thoroughly with warm water. Wash hands after every use. Do not use on dogs and cats younger than 3 months or on pregnant or nursing animals. To minimise the risk of the animal getting fleas or ticks, change its bed regularly. Store in original container, keep away from children.

Use:
For external use only. Shake well before use. Wet the coat, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DEMN N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, MELIA AZADIRACHTA LEAF EXTRACT, SODIUM CHLORIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SHAMPOO FOR SHIH TZU

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
DEEPLY NOURISHING.
+NORI COMPLEX, PROTEIN, GLOSSING OIL.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Wheat proteins easily incorporate into hair and skin. It leaves the coat is deeply nourished. Suitable for dogs with dry and brittle hair.

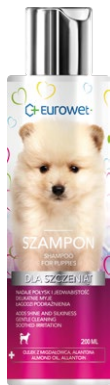

Indications:
For long coat care.

Note: Brush the coat thoroughly before washing in order to remove dead hair, dirt and avoid tangles and tightening of possible hair knots due to washing action.

Use:
For external use. Shake well before use. Wet the coat and skin, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the coat and skin for a few minutes. Thoroughly rinse with warm water. After washing use HYDRA-DEMN N moisturizing fluid. Dry with a towel or dryer on a low setting to obtain a slightly damp coat for easy combing.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, PEG 40 HYDROGENATED CASTOR OIL, HYDROLYZED WHEAT GLUTEN, SODIUM CHLORIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, POLYSORBATE 20, PARFUM, GLYCOL DISTEARATE, MINK OIL, COCAMIDE DEA, COCAMIDE MEA, LAURETH-10, PORPHYRA UMBILICALIS EXTRACT, CAESALPINIA SPINOSA GUM, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

SHAMPOO FOR PUPPIES

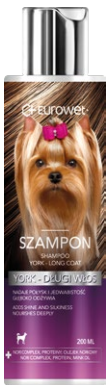

Shampoo for dogs.
SHINY AND SILKY FINISH.
GENTLE CLEANSING.
SOOTHES IRRITATION.
+ ALMOND TREE OIL, ALLANTOIN.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Almond tree oil makes the shampoo perfect for puppies. Allantoin soothes skin irritation. The skin is protected against injuries including minor cuts, damage, scratches or sunburns. The shampoo does not cause allergic reactions.

Indications:
Cleaning the skin and coat of puppies.

Use:
For external use only. Shake well before use. Wet the coat and skin, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the fur and skin for a few minutes. Rinse with warm water, dry and brush. After washing use the moisturizing fluid HYDRA-DERM N.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, PEG-40 HYDROGENATED CASTOR OIL, SWEET ALMOND OIL, ALLANTOIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

SHAMPOO FOR YORKS - LONG COAT

Shampoo for dogs.
ADDS SHINE AND SILKINESS.
DEEPLY NOURISHING.
+NORI COMPLEX, PROTEIN, MINK OIL.

The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Wheat proteins easily incorporate into hair and skin. It leaves the coat is deeply nourished. Suitable for dogs with dry and brittle hair.

Indications:
Long coat and hair care.
Note: Brush the coat thoroughly before washing in order to remove dead hair, dirt and avoid tangles and tightening of possible hair knots due to washing action.

Use:
For external use. Shake well before use. Wet the coat and skin, apply the shampoo, spread, lather and rinse. Repeat the action, leaving the shampoo on the coat and skin for a few minutes. Thoroughly rinse with warm water. After washing use HYDRA-DERM N moisturizing fluid. Dry with a towel or dryer on a low setting to obtain a slightly damp coat for easy combing.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, PEG 40 HYDROGENATED CASTOR OIL, HYDROLYZED WHEAT GLUTEN, SODIUM CHLORIDE, GLICERIN, PEG-7 GLYCERYL COCATE, POLYSORBATE 20, PARFUM, GLYCOL DISTEARATE, MINK OIL, COCAMIDE DEA, COCAMIDE MEA, LAURETH-10, PORPHYRA UMBILICALIS EXTRACT, CAESALPINIA SPINOSA GUM, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

CLEANSING FOAM FOR DOGS & CATS (DRY USE)

Shampoo for dogs and cats.
EASY TO USE AT HOME AND WHILE TRAVELLING.
+ GENTLE WASHING AND MOISTURIZING SUBSTANCES.

The foam shampoo is designed specifically for dogs that don't like baths. Since it's a foam it may be used while travelling or before dog shows, where water may not be available. Its ingredients allow for thorough cleaning of coat and skin. It makes the coat soft, shiny and easy to brush.

Indications:
Coat and skin care.

Directions:
Shake well before use. Apply foam to a damp washing glove and rub gently into the coat. Wash section by section, regularly adding the shampoo, until the entire body is cleaned. Wipe off with a towel and brush.

Warning:
If product accidentally gets into eyes, rinse thoroughly with warm water.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, GLICERIN, SODIUM CHLORIDE, POLYSORBATE 20, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACIDS

CONDITIONER FOR DOGS

Conditioner for dogs.
ADDS SHINE AND SILKINESS.
MAKES BRUSHING EASIER.
+ ALMOND OIL.

The conditioner makes brushing easier, leaving the coat soft, shiny and silky.

Indications:

Coat care.

Use:

After washing with a shampoo, spread the conditioner over the entire coat and massage in gently. Leave on for 2-3 minutes, then rinse off with warm water. Repeat if necessary. Dry and brush.

Warning:

If product accidentally gets into eyes, rinse thoroughly with warm water.

INCI: AQUA, CETYL ALCOHOL, CETEARYL ALCOHOL, STEARALKONIUM CHLORIDE, PEG-20 STEARATE, SILICONE QUATERIUM-17, LAURETH-9, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, TOCOPHERYL ACETATE, PERFUM, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

EAR CLEANSING EMULSION FOR DOGS & CATS

Ear cleansing emulsion for dogs & cats.
REMOVES WAX.
SOFTENS CALLOUS EPIDERMIS.
+ ALMOND OIL.

Helps to remove excess wax from internal ear canal and from ear lobe. Softens and helps to eliminate calluses.

Indications:

Ear care.

Use: apply 5 - 30 drops (depending on the size of the animal) of the lotion to the ear canal. Spread by rubbing the base of the ear and then remove the excess with a swab. Clean the inside of the earlobe at the same time. Repeat until the ear is fully cleaned. Use once or twice a week, depending on the amount of earwax produced.

INCI: AQUA, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, BENZALKONIUM CHLORIDE, PERFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

EYE AND EYELID CLEANSER

Eye and eyelid cleanser for dogs and cats.
SOOTHES SYMPTOMS OF IRRITATION.
MOISTURIZES EYES AND EYELIDS.
+ CENTAUREA WATER.

The fluid soothes conjunctival irritation and facilitates the natural lubrication of eyes and eyelids. Helps to remove impurities from the conjunctival sac.

Indications:

Eye and eyelid care.

Use: wet the eye with a soaked pad or apply a few drops of the fluid directly to the conjunctival sac. Remove the excess and wash the eyelids. Apply according to need, even on a daily basis.

INCI: AQUA, CENTAUREA CYANUS FLORAL WATER, SODIUM CHLORIDE, BENZALKONIUM CHLORIDE, SODIUM METHYLPARABEN, ORTOFOSFORIC ACID, CI 42090

GOLD SKIN AND COAT REGENERATOR

Complementary feed, vitamin complex for dogs and cats.

ADDS SHINE AND SILKINESS.

+ BIOTIN, VIT. A, B6, NICOTINIC ACID.

Complementary feed for dogs and cats that improves the look of coat. It is particularly recommended during shedding periods. It also helps to compensate for nutritional deficiencies and satisfies the needs of convalescing animals. In addition, hydrolysed liver extract provides a number of B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, it positively boosts body functions. Vitamins improve immunological and metabolic processes of the body.

Directions for use: mix with food:

- dogs and cats < 5 kg of body weight – 5 drops/day
- dogs and cats 5-15 kg of body weight – 10 drops/day
- dogs 15-30 kg of body weight – 15 drops/day
- dogs 30-45 kg of body weight – 20 drops/day
- dogs > 45kg of body weight – 25 drops/day

1 ml contains 20 drops.

The product contains protein of animal origin. It can be fed to animals other than ruminants.

Composition:

Propylene glycol, products of animal origin.

Additives per 1 kg: 3a672a vitamin A 2 g, 3a880 biotin 0,5 g, 3a831 vitamin B6 4 g, 3a314 niacin 8 g, 3a841 calcium D-pantothenate 8 g, E6 zinc gluconate 0,3 g.

Analytical elements:

crude protein 0.3%, crude fiber 0%, crude fat 0.9%, crude ash 0.1%.

PROTECTIVE SPRAY FOR PADS

Protective spray for pads for dogs and cats.

SNOW AND SALT, HOT SURFACES, HARD GROUND, SOOTHES SYMPTOMS OF IRRITATION.

+ ALOE, CENTELLA ASIATICA.

Veterinary dermocosmetic, nourishing and soothing damaged foot pads and stimulating the regeneration of the epidermis. Its ingredients regulate the skin microflora and have astringent properties.

Indications: regeneration of damaged foot pads and soothing of irritation.

Precautions: avoid contact with eyes.

Use: after cleaning damaged foot pads spray or spray onto a cosmetic pad and rub the damaged area. Dry. Repeat the treatment twice a day. In case of dogs with sensitive pads use depending on the need - 2-3 times a week. Use also in order to strengthen pads of working dogs and dogs at risk of foot pads damage e.g. during hunting, vacations (hard and sharp surfaces, hot asphalt) and in winter time (protection against harmful effects of salt, snow...) - once a day. Do not allow licking off the product.

INCI: AQUA, GLYCERIN, TRICHLOROACETIC ACID, PROPYLENE GLYCOL, CENTELLA ASIATICA EXTRACT, ALOE BARBADENSIS LEAF JUICE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID.

PROTECTIVE SPRAY AGAINST FLEAS AND TICKS

Protective spray against fleas and ticks for dogs and cats.

PROVIDES EFFECTIVE ADDITIONAL PROTECTION AGAINST FLEAS AND TICKS NATURALLY SAFE.

+ NEEM OIL.

The preparation helps to protect dogs and cats from fleas and ticks.

Use: brush the coat against its natural direction. Spray evenly from a distance of 20 - 30 cm while spreading over the coat (avoiding the eyes). Rub into the coat and skin. Apply once a week or according to need.

Warning: avoid contact with eyes. If the product accidentally gets into the eyes, rinse thoroughly with warm water. Wash hands after every use. Do not use on dogs and cats younger than 3 months, pregnant or nursing animals. To minimize the risk of the animal getting fleas or ticks, change its bed regularly.

Storage: store in original packaging, keep away from children.

INCI: AQUA, POLYSORBATE 20, PEG 4 RAPESEEDAMIDE, GLYCERIN, MELIA AZADIRACHTA LEAF EXTRACT, BENZALKONIUM CHLORIDE, CITRIC ACID
