ALERVET EXCELLENCE ANTI-ITCHING SHAMPOO

200 ml

ANTI-ITCHING, ANTI-INFLAMMATORY, MOISTURISING
GENTLY CLEANSES

+PHYTOSPHINGOSINE

Phytosphingosine is a natural component of the epidermis and a modified proceramid which participates in skin formation. It also strengthens the protective barrier of the skin.

ALERVET excellence is a veterinary dermocosmetic which provides relief for pruritus and inflamed skin. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin.

Indications: skin and coat care in treatment of inflamed skin. Soothing pruritus.

Use: carefully brush your dog or cat before the bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage gently until foam is formed, then rinse it. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly.

-frequency of use: use 2-3 times per week or in accordance with the recommendations of the veterinarian.

Warnings: avoid contact with eyes.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, POLYGRYCERYL-4 CAPRATE, PEG 40 HYDROGENATED CASTOR OIL, HYDROLYZED WHEAT GLUTEN, PEG 7 GLICERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, MINK OIL, PARFUM, PHYTOSPHINGOSINE HYDROCHLORIDE, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, SODIUM HYDROXIDE

ALERVET DERMATOLOGICAL SHAMPOO SOOTHING SYMPTOMS OF SKIN IRRITATION

HELPS RELIEVE SYMPTOMS OF ITCHING
REGULATES EXFOLIATION
RESTORES SOFTNESS OF COAT
+ CALENDULA OIL

Alervet is a veterinary dermocosmetic. It restores the softness of the coat and reduces the effects of pruritus and skin flaking and helps to regulate composition of skin microflora. Alervet has excellent moisturizing properties and promotes shiny look of the coat. The addition of gentle washing substances allow for frequent use.

Indications: use on dry skin or on skin prone to seborrhea and/or allergic reactions.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse off with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to needs.

INCI: AQUA, SODIUM LAURETH SULFATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, COCAMIDOPROPYL BETAINE, SODIUM CHLORIDE, POLYSORBATE 20, PARFUM, PROPYLENE GLYCOL, CALENDULA OFFICINALIS FLOWER EXTRACT, POLYSORBATE 80, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CI19140, CI42090

500, 200, 20x20 ml

ALU-DERM SKIN CARE SPRAY FOR DAMAGED SKIN

REGULATES THE SKIN MICROFLORA
AFFECTS THE REGENERATION OF THE EPIDERMIS
HAS A DRYING AND ASTRINGENT EFFECT

Alu-derm is a veterinary dermo-cosmetic to be used on damaged skin. The product ingredients regulate microflora and aid its regeneration. ALU-DERM has astringent properties.

Indications: helps to regenerate damaged skin.

Use: use on damaged skin. Spray from the distance of 15-20 cm until the damaged area is completely covered. Hold the container in the upright position. Repeat 2-3 times a day or when needed. Shake well before use.

Warnings: avoid contact with eyes. Use away from open flames (explosion hazard) and in a well ventilated area. Do not pierce. Do not heat. Pressurized metal container. Do not smoke while using the product. Do not inhale the aerosol.

INCI: CI 77000, ISOBUTYL METHACRYLATE, MEK

210 ml

HEXODERM EXCELLENCE SHAMPOO REGULATING THE SKIN MICROFLORA

200 ml

REGULATES THE SKIN MICROFLORA
GENTLE WASHING BASE

+ PHYTOSPHINGOSINE

Phytosphingosine is a natural component of the epidermis and a modified proceramid which participates in skin formation. It also strengthens the protective barrier of the skin.

+ CHLORHEXIDINE

Chlorhexidine has bactericidal and bacteriostatic properties against gram-positive and gram-negative and works as a fungistatic for most fungal and yeast pathogens. (malassezia).

Hexoderm excellence is a veterinary dermocosmetic that helps to restore a natural skin microflora. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin.

Indications: bacterial inflammation of the skin. Seborrhea.

Use: carefully brush your dog or cat before bathing. Wet the coat and the skin with warm water, apply the shampoo to the whole body and spread carefully. Massage gently until a lather forms, then rinse. Repeat. Allow the shampoo to remain on the coat and skin for a few minutes and then rinse thoroughly. Frequency of use: use 2-3 times per week or in accordance with the vet's recommendations.

INCI: Aqua, Cocamidopropyl Betaine, Coco Glucoside, Disodium Lauryl Sulfosuccinate, Glycerin, PEG 4 Rapeseedamide, Polyglyceryl-4 Caprate, Chlorhexidine Digluconate, PEG 40 Hydrogenated Castor Oil, Hydrolyzed Wheat Gluten, Peg 7 Glyceril Cocoate, Silicone Quaterium-17, Laureth-9, Mink Oil, Parfum, Phytosphingosine Hydrochloride, Terpinen-4-ol, Citric Acids, DMDM Hydantoin, Methylchloroisothiazolinone, Methylisothiazolinone, Sodium Hydroxide

HEXODERM SHAMPOO REGULATING THE SKIN MICROFLORA

REGULATES THE SKIN MICROFLORA
+ CHLORHEXIDINE, COCONUT OIL

Hexoderm is a veterinary dermocosmetic which regulates microflora of the skin by stabilising pH and prevents drying by the formation of a protective fat-protein layer. Addition of gentle washing substances allow for frequent use. **Indications:** use on dry skin or on skin prone to seborrhea and/or allergic reactions.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse off with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to needs. For the final rinse, the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE 3%, PEG 4 RAPESEEDAMIDE, GLYCERIN, COCOS NUCIFERA OIL, COCOS NUCIFERA FRUIT EXTRACT, GLYCOL DISTEARATE, COCAMIDE MEA, LAURETH-10, POLYSORBATE 20, PARFUM, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

500, 200, 20x20 ml

HEXODERM-K SHAMPOO REGULATING THE SKIN MICROFLORA

HELPS TO MAINTAIN OPTIMAL SKIN MICROFLORA
SOOTHES INFLAMMATION
RESTORES SOFTNESS OF THE COAT
+ CHLORHEXIDINE, KETOCONAZOLE, COCONUT OIL

Hexoderm-K is a veterinary dermocosmetic which regulates microflora of the skin by stabilising pH and prevents drying by the formation of a protective fat-protein layer. Chlorhexidine and ketoconazole kill harmful microorganisms that cause skin conditions. Addition of gentle washing substances allow for frequent use.

Indications: use on dry skin or on skin prone to seborrhea and/or allergic reactions. **Use:** shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse off with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to needs. For the final rinse, the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, POLYGLYCERYL-4 CAPRATE, CHLORHEXIDINE DIGLUCONATE, PEG 4 RAPESEEDAMIDE, KETOCONAZOLE, GLYCERIN, COCOS NUCIFERA OIL, COCOS NUCIFERA FRUIT EXTRACT, GLYCOL DISTEARATE, COCAMIDE MEA, LAURETH-10, POLYSORBATE 20, PARFUM, CITRIC ACID, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

200, 20x20 ml

PEPTODERM EXCELLENCE

SHAMPOO FOR DOGS AND CATS – AIDS SKIN MICROFLORA REGULATION

200 ml

- + ANTIMICROBIAL PEPTIDE (AMP) - natural substance synthesized living organisms with anti: -bacterial, -fungal, -viral and -protozoal activity. Stimulates healing processes and neutralises toxins.
- + CHLORHEXIDINE - has bactericidal and bacteriostatic properties against Gram-positive and Gram-negative bacteria and works as a fungistatic for most fungal and yeast pathogens (Malassezia).
- + TERPINEN-4-OL is isolated from tea tree oil by fractional distillation. Presents antimicrobial, antifungal and anti - inflammatory properties.

Peptoderm excellence is a veterinary dermocosmetic which regulates microflora of the skin, stabilises its pH and prevents drying by the formation of a lipid layer. Innovative formula utilises functional synergy of AMP antimicrobial peptide, chlorhexidine and terpinen-4-ol in order to eliminate harmful microorganisms that cause a number of skin conditions. Additionally, this solution prevents formation of antimicrobial resistance.

Indications: skin and coat care in treatment of bacterial inflammation of the skin. Maintaining natural skin microflora. Seborrhea.

Use: carefully brush the coat before bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage until foam is formed, then rinse. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly with warm water.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, CHLORHEXIDINE DIGLUCONATE, PEG 40 HYDROGENATED CASTOR OIL, ALOE BARBADENSIS LEAF JUICE, PEG 7 GLICERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, MINK OIL, PAREFUM, TERPINEN-4-OL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID, SODIUM HYDROXIDE, MONOPEPTIDE-17

HYDRA-DERM N

SPRAY AGAINST SEBORRHEA AND KERATOSIS

- REGULATES PRODUCTION OF SEBUM
- SOOTHES SYMPTOMS OF IRRITATION AND ITCHING

Hydra-derm N is a veterinary dermo-cosmetic. Juniper oil regulates sebum secretion and prevents excessive skin keratinisation. It relieves skin irritation. Softening effect of glycerine facilitates skin hydration, relieves itching and makes the coat shiny.

Indications: local hydration and cleansing of skin with a tendency to seborrhoea. Softening the skin in case of localised excessive keratinisation (elbows, hocks, etc.). Keratotic and emollient action on the skin with symptoms caused by general inflammations e.g. allergies, ichthyosis.

Use: spray the skin and coat in the affected area. Use every day or according to need.

INCI: AQUA, GLYCERIN, POLYSORBATE 20, JUNIPURES OXYCEDRUS WOOD OIL, SILICONE QUATERIUM-17, LAURETH-9, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

200 ml

HYDRA-DERM Spray

MOISTURIZING LIQUID FOR THE SKIN AND DRY COAT

- PREVENTS DRYNESS OF THE SKIN AND HAIR
- WITH UREA AND LACTIC ACID

Hydra-Derm Spray is a veterinary dermocosmetic which helps to maintain the water and lipid balance in case of dry skin or dandruff (dry seborrhea). It demonstrates water retention properties preventing skin from drying out.

Indications: general or local moisturization of dry or flaky skin. Skin softening in case of local keratosis (elbows, ankle joints, etc.).

Use: 1) rinse: dilute 20 ml of liquid in 1 litre of water. Apply on skin and coat. Massage and dry. 2) spray: dilute with water at a ratio of 1:2. Apply on skin and coat once a day. Work in and dry.

INCI: AQUA, GLYCERIN, UREA, POLYSORBATE 20, PARFUM, LACTIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

200 ml

SEBOVET EXCELLENCE DANDRUFF AND SEBACEOUS SHAMPOO

200 ml

ASSISTS WITH THE TREATMENT
GENTLE WASHING BASE

- + PHYTOSPHINGOSINE is a natural component of the epidermis and a modified proceramid which participates in skin formation. It also strengthens the protective barrier of the skin.
- + PLANTS EXTRACTS revitalise damaged, brittle and dry coat. Act as anti-inflammatory, anti-septic and antidandruff agents. Regulate sebum production and eliminate dryness of the skin.

Sebovet excellence is a veterinary dermocosmetic with antiseborrheic properties which reduces the formation of skin odors. Phytosphingosine restores the protective barrier of the skin and keeps it moisturized. The complex of plant extracts contained in the shampoo has strong antiseborrheic and antidandruff properties. The shampoo has perfect cleaning properties and makes it easier to remove dead cells and sebum from the surface of the skin.

Indications: skin and coat care in treatment of the keratotic and seborrheic syndrome; prevention of unpleasant skin odors in animals prone to seborrhea.

Use: carefully brush your dog or cat before the bath. Wet the coat and the skin with warm water, apply the shampoo over the whole body and spread carefully. Massage gently until foam is formed, then rinse it. Repeat the actions. Allow the shampoo to remain on the coat and the skin for few minutes and rinse thoroughly. Frequency of use: use 2-3 times per week or in accordance with the recommendations of the veterinarian.

INCI: AQUA, COCAMIDOPROPYL BETAINE, COCO GLUCOSIDE, DISODIUM LAURYL SULFOSUCCINATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, PROPYLENE GLYCOL, POLYGRYCERYL-4 CAPRATE, HYDROLYZED WHEAT GLUTEN, PEG 7 GLICERYL COCOATE, SILICONE QUATERIUM-17, LAURETH-9, ROSMARINUS OFFICINALIS LEAF EXTRACT, CHAMOMILLA RECUTITA FLOWER EXTRACT, ARNICA MONTANA FLOWER EXTRACT, LAMIUM ALBUM EXTRACT, SALVIA OFFICINALIS LEAF EXTRACT, PINUS SYLVESTRIS BUD EXTRACT, NASTURTIUM OFFICINALE EXTRACT, ARCTIUM MAJUS ROOT EXTRACT, CITRUS LIMON PEEL EXTRACT, HEDERA HELIX EXTRACT, CALENDULA OFFICINALIS FLOWER EXTRACT, TROPAEOLUM MAJUS FLOWER EXTRACT, PAREFUM, POLISORBATE 20, PHYTOSPHINGOSINE HYDROCHLORIDE, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, SODIUM HYDROXIDE

SEBOVET CLEAN DERMATOLOGICAL SHAMPOO AGAINST OILY SEBORRHOEA

HELPS TO IMPROVE FUNCTIONING OF SEBACEOUS GLANDS
PREVENTS EXCESSIVE EXFOLIATION OF THE EPIDERMIS

Sebovet Clean is a veterinary dermo-cosmetic formulated for dogs with symptoms of greasy seborrhea. Juniper oil influences sebum secretion and prevents excessive exfoliation.

Indications: greasy coat (greasy seborrhoea), sticky dandruff flakes, red, irritated skin patches.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, SODIUM CHLORIDE, JUNIPERUS OXYCEDRUS WOOD OIL, POLYSORBATE 20, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

200 ml

SEBOVET DRY DERMATOLOGICAL ANTI - DANDRUFF SHAMPOO

IMPROVES THE SKIN ELASTICITY
RELIEVES SYMPTOMS OF IRRITATION

Sebovet Dry is a veterinary dermo-cosmetic designed to relieve dandruff in cats and dogs, restoring the healthy balance of the epidermis, increasing elasticity of the skin and relieving irritation.

Indications: dandruff (seborrhoea sicca) characterised by large number of scales. Oily coat with dry and easily damaged hair. The addition of gentle washing substances allow for frequent use.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the moisturizing fluid Hydra-Derm N is recommended. Warnings: avoid contact with eyes.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, SODIUM CHLORIDE, HYDROLYZET KERATIN PARFUM, POLISORBATE 20, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

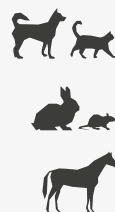

200 ml

FYTO-DERM

DAMAGED SKIN TREATMENT

HELPS WOUND HEALING

30, 100 ml

Fyto-Derm is a veterinary dermo-cosmetic to be used on damaged skin. Product ingredients regulate skin microflora and aid its regeneration. The characteristic odour of the product prevents animals from licking damaged areas.

Indications: treatment of damaged skin.

Use: clean the damaged skin area and spray 3 times a day.

Warnings: avoid contact with eyes.

INCI: DENAT. ALCOHOL, AQUA, PROPYLENE GLYCOL, LAVANDULA ANGUSTIFOLIA (LAVENDER) OIL, ROSMARINUS OFFICINALIS OIL, THYMUS VULGARIS (THYME) OIL, CENTELLA ASIATICA EXTRACT, AESCULUS HIPPOCASTANUM SEED EXTRACT

DRY&CLEAN

DRY WASHING FOAM

CLEANS THE SKIN AND COAT WITHOUT USING WATER
REMOVES SOILING FROM AREAS AFTER SURGICAL TREATMENT
DOES NOT CAUSE IRRITATION

Dry&Clean foam is suitable for cleaning animal coat and skin without using water. It may be used during travel or before an exhibition. It proves really helpful when removing soiling from the skin and coat after veterinary treatment. Dry & Clean foam helps to thoroughly clean and moisturize the skin and coat. It does not cause irritation. The coat remains soft, shiny and easy to brush..

Indications: coat and skin hygiene..

Use: Shake before use. Apply the foam onto a wet glove and gently massage onto the coat. Work in gradually, and keep adding the shampoo until the skin and coat are clean. Wipe the coat with a towel and brush.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, CHLORHEXIDINE DIGLUCONATE, GLYCERIN, UREA, POLYSORBATE 20, PERFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, LACID ACID

150 ml

PEROXYVET

DERMATOLOGICAL SHAMPOO FOR OILY SKIN AND COAT

SUPPORTS REGULATION OF SKIN MICROFLORA
AND SECRETION OF SEBACEOUS GLANDS
SOOTHES SYMPTOMS OF SKIN IRRITATION

Peroxyvet is a veterinary dermo-cosmetic for oily skin and coat. It promotes healthy skin microflora and regulates and functioning of the sebaceous glands. It relieves skin irritation and facilitates natural skin regeneration. The addition of gentle washing substances helps to keep skin and coat in good condition.

Indications: oily skin and coat care.

Use: wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended. .

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, BENZOYL PEROXIDE, CETEARYL ALCOHOL, PEG 4 RAPESEEDAMIDE, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, GLYCERIN, PROPYLENE GLYCOL, TALC, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, SODIUM CHLORIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

500, 200, 20x20 ml

SEBOSTOP SPOT-ON

ANTI - SEBORRHEA DROPS WITH PHYTOSPHINGOSINE

5x2 ml

HELPS TO FIGHT KERATO - SEBORRHEIC CONDITIONS OF GENERAL AND LOCAL SKIN
REMOVES EXCESS WAX FROM THE EAR CANAL
ELIMINATES UNPLEASANT SKIN ODOURS

Sebostop Spot-On is a veterinary dermocosmetic specially developed for dogs with symptoms of seborrhea. Phytosphingosine aids the reconstruction of the corneal layer of the epidermis, thus reducing seborrhea, and regulates the epidermal microflora. Other components of the product protect the skin against dehydration and soothe irritation..

Indications: kerato-seborrheic skin conditions, general or local. Excess wax in the external ear canal. Unpleasant odour of the skin.

Use: as a supportive treatment in conjunction with anti-seborrheic shampoos SEBOVET CLEAN or SEBOVET excellence in case of:

– generalised kerato-seborrheic syndrome: once a week for four weeks.

After moving aside the fur, apply the contents of the pipette to the skin in 2 or 3 places (in the intercostal and lumbar region):

– dogs and cats of body mass <20 kg 1 pipette

– dogs of body mass 20-45 kg 2 pipettes

– dogs of body mass > 45 kg 3 pipettes

– local kerato-seborrheic syndrome: apply 1 pipette contents to the skin in the area of the change 1 time a week, for 4 weeks.

– unpleasant odours: apply as in case of the generalized kerato-seborrheic syndrome, once a week.

– excess wax in the external ear canal: the content of ½ - 1 pipette into each ear 2 times a week, for a period of three weeks.

INCI: ETHOXYDIGLYCOL, PVP, POLYGLYCERYL-4 CAPRATE, PHYTOSPHINGOSINE

SEBOLAN

DERMATOLOGICAL SHAMPOO AGAINST ITCHING AND DANDRUFF

RELIEVES SYMPTOMS OF ITCHING
MAKES SKIN MORE ELASTIC
REGULATES THE SKIN MICROFLORA

Sebolan is a veterinary dermo-cosmetic. The Juniper Oil has keratolytic and keratoplastic properties. It makes skin more elastic, soothes symptoms of pruritus and regulates the microflora of the skin.

Indications: oily coat, dandruff and skin irritation.

Use: shake well before use. Wet the coat thoroughly with warm water. Pour the shampoo over the wet coat and skin and distribute evenly over the whole body (avoiding the eyes). Massage well into the coat, working up a good lather. Rinse with warm water. Repeat, leaving the shampoo on the hair and skin for a 5-10 minutes before rinsing off. Use according to need. For the final rinsing the use of moisturizing fluid Hydra-Derm N is recommended.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, SODIUM CHLORIDE, POLISORBATE 20, JUNIPURES OXYCEDRUS WOOD OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

200 ml

90 ml

TANADERM

PROTECTIVE SPRAY FOR PAWS

SUPPORTIVE AND REGENERATING
COLORLESS

Tanaderm is a veterinary nourishing dermocosmetic soothing damaged foot pads and stimulating renewal of the epidermis. Its ingredients regulate the skin microflora and demonstrate astringent effect.

Indications: renewal of damaged foot pads and soothing of irritation.

Use: after cleaning damaged foot pads spray or spray onto a cosmetic pad and rub the damaged area. Dry. Repeat the treatment twice a day. In case of dogs with sensitive pads use depending on the need - 2-3 times a week. Use also in order to strengthen pads of working dogs and dogs at risk of foot pads damage e.g. during hunting, vacations (hard and sharp surfaces, hot asphalt) and in winter time (protection against harmful effects of salt, snow...) - once a day. Do not allow licking off the product.

INCI: AQUA, GLYCERIN, TRICHLOROACETIC ACID, PROPYLENE GLYCOL, CENTELLA ASIATICA EXTRACT, ALOE BARBADENSIS LEAF JUICE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

AMYLAN COMPLEMENTARY FEED

30 tab.

22,5 g

IMPROVES DIGESTIVE AND PANCREATIC ISSUES

Amylan restores digestive balance.

Suggested period of use: 3–12 weeks, however in case of chronic pancreatic insufficiency, throughout the animal's life.

Use: Use before feeding. The required dosage should be divided into portions equal to the number of meals the animal has per day:

Cats and small dogs - 1 piece / day

Medium dogs - 2 piece / day

Large dogs - 3 piece / day

Ingredients: lactose, saccharose, processed animal protein (dried beef liver), calcium carbonate, products from the processing of plants (barley malt diastase), powdered cellulose, fatty acid salts.

Additives per 1 kg: Zootechnical: Enzymes: Alfa – amylase EC 3.2.1.1 from *Bacillus subtilis* DS098 – 87.5 g.

Analytical constituents: crude protein 9,5%, crude fiber 29,3%, crude fat 1,9%, crude ash 3,9%.

DIARSED COMPLEMENTARY FEED

RELIEVES STOMACH AND INTESTINAL DISORDERS

Diarsed helps to maintain the proper function of the digestive system, supports it in gastrointestinal disorders. An addition of aluminosilicate has a beneficial influence on the stomach in case of excessive secretion of hydrochloric acid. Plant products facilitate functioning of the digestive system and help to restore proper gastrointestinal peristalsis.

Use: Administer directly or mix with food:

- dogs and cats: 1 pc / 10 kg of body weight twice a day for 3-5 days.

The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: processed animal protein (from swine), products from the processing of plants (*Vaccinium myrtillus*- common bilberry or blue whortleberry), flour from dried carob pods, micronised maltodextrin.

Additives per 1 kg: technological: stabilizing agents: E558 bentonite - montmorillonite 200 mg.

Analytical constituents: crude protein 11,3%, crude fiber 24,2%, crude fat 3,9%, crude ash 29,2%.

30 tab.

18,6 g

UROMIL COMPLEMENTARY FEED

FALSE PREGNANCY

Uromil reduces effects of false pregnancy in bitches and facilitates the return of engorged mammary glands to their proper state.

Use: Administer directly or mix with food:

- 1 pc/ 10 kg of body weight twice a day for 10 days. The product contains protein of animal origin. It can be fed to animals other than ruminants.

Ingredients: dicalcium phosphate, processed animal protein (from swine), products from the processing of plants: *Hieracium pilosella* (mouse-ear hawkweed).

Analytical constituents: crude protein 11,2%, crude fiber 43,6%, crude fat 2,1%, crude ash 12,5%.

12,9 g

KARBOWITAL COMPLEMENTARY FEED

GASTROINTESTINAL PROTECTION

Karbowital positively boosts functioning of the digestive system with gastrointestinal disorders. Colloidal carbon solution protects digestive tract mucosa against irritants, absorbs harmful substances and helps to restore proper functioning of intestines.

Use:

KARBOWITAL 125 ml: administer directly or mix with food:

- dogs, cats: 5 ml / 10 kg of body weight, twice a day Shake before use.

KARBOWITAL 1 L: administer directly or mix with food:

- 1ml/kg of body weight twice a day.

Shake before use.

Ingredients: beet sugar (sucrose), vegetal carbon (charcoal), glycerin, propylene glycol.

Analytical constituents: crude protein 0,27%, crude fiber 0,63% crude fat 0,1%, crude ash 0,1%.

125 ml

1000 ml

KARBOWITAL COMPLEMENTARY FEED

GASTROINTESTINAL PROTECTION

Karbowital positively boosts functioning of the digestive system with gastrointestinal disorders. Colloidal carbon and acacia gum protect digestive tract mucosa against irritants, absorb harmful substances and help to restore proper functioning of intestines.

The product is a tasty treat, thus willingly consumed by animals.

Use: Administer directly or mix with food:

1 tab. per 5 kg b.w., 2-3 times a day or follow veterinarian recommendations.

Ingredients: acacia gum, vegetal carbon (charcoal), processed animal protein (bovine liver), magnesium stearate, cristobalite.

Analytical constituents: crude protein 10,1%, crude fiber 25,3%, crude fat 3,9%, crude ash 4,68%.

30 tab.

30 g

WITAMINA B-12 COMPLEMENTARY FEED

IMPROVES LIVER, PANCREAS AND BOWEL FUNCTION

Witamina B-12 feed supplement for dogs and cats designed to restore B12 reserve in the liver. Its deficiency is often observed in pancreatic insufficiency, chronic inflammatory bowel disease, liver and bile ducts inflammation..

Use: Feed directly or crushed and mixed into regular feed.

- up to 10 kg b.w. - 1/2 pc / day,

- from 10 to 20 kg b.w. - 1 pc / day,

- over 20 kg b.w. - 2 pc / day.

Product is a tasty treat, thus pets willingly accept it.

Recommended usage period: 3 months. Following this period consult a veterinarian and arrange vitamin B12 level test in order to establish maintenance dose.

Composition: magnesium carbonate, brewer's yeast – dead (from *Saccharomyces cerevisiae*), processed animal protein (beef liver).

Additives per 1 kg: Nutritional: Vitamins: 3a Vitamin B12 72 g, 3a316 Folic Acid 7.1 g. Technological: Acacia Fibre (E414).

Analytical constituents: crude protein 16.6%, crude fibre 1.3%, crude fat 2.4%, crude ash 31.1%.

30 tab.

21 g

HEPACHOL COMPLEMENTARY FEED

SUPPORTS THE FUNCTION OF DIGESTIVE SYSTEM AND LIVER

Hepachol syrup positively affects functioning of the digestive system, aids functioning of the liver. Ingredients of the feed stimulate intestinal peristalsis and bile production as well as secretion of digestive enzymes. This product is recommended in case of overfeeding, decreased appetite, weakness, constipation, vomiting.

Use:

Hepachol 30, 125 ml: Administer directly or mix with food: **Dogs and cats:** body weight up to 7kg : 5ml/day; - body weight 7-12 kg: 10 ml / day; - body weight 12-18 kg: 15 ml / day; - body weight 18-25 kg: 20 ml / day; - body weight > 25 kg: 30 ml / day. Twice a day for 8-15 days.

Hepachol 1 L: Mix with food or water: **Horses and adult cattle:** - 5ml / animal / day for 4 months; - as food supplement during weakness - 60 ml / animal for 7 days.

Calves: - from the 1st; - as food supplement during weakness - 30 ml / animal for 5 days. Administer twice a day. **Sheep, goats:** - adult animals: 15-20 ml / animal / day for 5-7 days; - lambs and goat kids: 5-10 ml / animal / day for 5-7 days month; of life until slaughter - 2 ml / animal / day. **Pigs:** - weaning piglets - 1,5ml in 1 l of water or 1ml / animal / day for 7days; - sows - 50 ml / animal / day for 5 days before and after the birth; - as food supplement during weakness: piglets - 3-5 ml / animal / day; porkers - 15 ml / animal / day for 5 days; sows - 50 ml / animal / day for 5 days; **Broiler chickens, hens, ducks, geese, turkeys, rabbits:** 1 - 2 ml in 1 l of water for 5days; - fattening of geese: 4 ml / bird / day for 5 days in the middle of the fattening period.

Ingredients: sorbitol, propylene glycol, plant processing products: artichoke (Cynara scolymus), boldo leaf (Pneumus boldus), rosemary (Rosmarinus officinalis), dandelion (Taraxacum officinale).

Additives in 1 kg: nutritional: amino acids: L-lysine HCl 15.7g.

Analytical constituents: crude protein 2.4%, crude fiber 0%, crude fat 0%. crude ash 0.3%.

METADIAR COMPLEMENTARY FEED

PROTECTS STOMACH AND INTESTINES

Metadiar is a natural aluminosilicate that has an adsorbing and protective effect on the digestive tract. It covers the surface of gastrointestinal mucosa and protects it against irritants. It is not absorbed from the digestive tract. It binds toxic substances produced by the intestinal flora, preventing their absorption. It also limits the loss of water through the intestine wall.

Use: mix into food or water:

- cats with body weight >5 kg: 1/2 of level measuring cup (or level teaspoon), twice a day;
- cats with body weight <5 kg: half of the above mentioned amount;
- dogs: 1 level measuring cup (or level teaspoon) / 10 kg of body weight, twice a day. 1 measuring cup contains ca. 2,5g.

Aluminosilicate contained in the complementary food hinders absorption of other orally administered ingredients, therefore they should be used at least an hour after administering METADIAR.

Ingredients: magnesium oxide, sodium chloride.

Additives per 1 kg: technological: binding, anti-caking and stabilizing agents: E558 bentonite-montmorillonite 700g, nutritional: mixture of trace elements: E1 iron (iron oxide) 250 mg.

Analytical constituents: calcium 0%, sodium 1,5%, phosphorus 0%.

STRESNAL COMPLEMENTARY FEED

EASES STRESS
CALMS DOWN

Stresnal contains plant ingredients that have a calming effect on animals. They reduce anxiety, fear and aggression as well as help to relieve muscle tension. The product has a beneficial influence on dogs and cats during their owner's absence, competitions, shows, journeys and puppy depression.

Use: Administer directly or mix with food: **Dogs and cats:** 2ml/5kg of body weight/day. Administer 2-3 times a day. In case of planned travel, administer 30-60 minutes before the journey.

Ingredients: glycerin, products of plant processing from: Eschscholtzia californica (California poppy), Crataegus oxyacantha (hawthorn or mayflower), Passiflora incarnata (maypop, also called Purple/ True Passionflower), Hypericum perforatum (St John's wort).

Additives per 1 kg: nutritional: amino acids: 3.2.3. L-lysine HCl 20 000 mg.

Analytical constituents: crude protein 1,14%, crude fiber 0,4%, crude fat 0,11%, crude ash 0,63%, humidity 71,8%.

PROBIOTYK

NATURAL REGULATION OF THE INTESTINAL FLORA

ENHANCES THE PROPER FUNCTIONING OF THE INTESTINAL MICROBIOTA
SUPPORTS DIGESTION AND PERISTALSIS. REMOVES TOXIC COMPOUNDS FROM THE BODY
PROVIDES THE BODY WITH MINERALS AND VITAMINS AND IMPROVES THEIR ABSORPTION
IMPROVES IMMUNITY AND VITALITY

Probiotyk is a combination of health - promoting microorganisms naturally found in the gastrointestinal tract and vitamin, mineral, amino acid concentrate. Biological protection against pathogenic strains of bacteria (e.g.: Escherichia coli, Salmonella, Mycobacterium, Shigella, Bacteroides, Proteus, Streptococcus, Clostridium, Pseudomonas, Vibrio), viruses (rotavirus and others).

Precautions: discontinue use in case of intolerance.

Use: The preparation is administered in feed or drinking water: **Dogs:** - up to 5 kg body weight – ½ sachet every 3 days; - from 5 to 20 kg body weight – 1 sachet every 3 days; - above 20 kg body weight – 2 sachets every 3 days; **Cats:** - up to 5 kg body weight – ½ sachet every 3 days; - from 5 to 20 kg body weight – 1 sachet every 3 days.

Use during: antibiotic therapy, diarrhoea, constipation, digestive disorders, deworming, infectious diseases, immunodeficiency, stress, unpleasant oral odour.

Ingredients: calcium and magnesium carbonate, sucrose.

Additives per 1 kg: Sensory: 2b620 L-glutamic acid 3400 mg, 2b17019 L-proline 1568mg, 2b17012 L-leucine 416mg, 2b17005 L-Aspartic acid 1112mg, 2b17020 DL-serine 960mg, 2b17018 L-phenylalanine 760mg, 2b17002 L-alanine 518mg, 2b17034 glycine 320mg. Nutritional: Vitamins: 3a672a vitamin A 400 000IU, 3a671 vitamin D3 40 000IU, 3a300 vitamin C 1 000 mg, 3a314 niacin 800mg, 3a700 vitamin E 400mg, 3a841 calcium D-pantothenate 400mg, 3a vitamin B2 160mg, 3a820 vitamin B1 80 mg, 3a831 vitamin B6 60mg, 3a710 vitamin K3 60mg, 3a316 folic acid 20mg, 3a880 biotin 6mg. Aminoacids: 3c301 DL-methionine 2 000mg, 3.2.3 L-lysine 2 000mg, 3c370 L-valine 1 096mg, 3c410 L-threonine 744mg, 3c362 L-arginine 624mg, 3c440 L-tryptophan 256mg, 3c391 L-cystine 76 mg, 3c3.8.1 L-isoleucine 944mg. Zootechnical: 4b1820 Bacillus subtilis C-3102, 4b1715 Lactobacillus acidophilus CECT-4529.

Analytical constituents: crude protein 1,88%, crude fiber <0,4%, crude fat <0,3%, crude ash 69,27%, calcium 0,16%, sodium 0,00069%, phosphorus <0,06%.

LESPEWET COMPLEMENTARY FEED

URINARY TRACT DISORDERS

Lespewet positively affects the urinary system. Due to its diuretic properties, it helps to maintain healthy kidney function.

Use: administer directly or mix with food:

- dogs, cats: 5 ml / 5 kg of body weight / day.

Administer twice a day for 10-15 days.

One dosage should not exceed 16 ml.

Ingredients: glycerin, sodium chloride, products from the processing of plants - Lespedeza capitata.

Additives per 1 kg: nutritional: amino acids, their salts: 3.2.3. L-lysine HCl 20 g.

Analytical constituents: crude protein 1,8%, crude fiber 0%, crude fat 0%, crude ash 0%, humidity 69%,

LESPEWET COMPLEMENTARY FEED

URINARY TRACT DISORDERS

Lespewet has a positive effect on the urinary system. Due to its diuretic properties, it helps to maintain healthy kidney function.

Use: administer directly or mix with food:

- 1 piece / 6 kg of body weight / day for 5-10 days.

If necessary, the number of tablets can be doubled or used for a longer period of time. The product contains protein of animal origin.

It can be fed to animals other than ruminants.

Ingredients: processed animal protein (from swine), maltodextrin, products from the processing of plants - Lespedeza capitata.

Additives per 1 kg: Technological: magnesium stearate 2 g.

Analytical constituents: crude protein 15%, crude fiber 1,1%, crude fat 4,8%, crude ash 24%.

ELECTROLYTES COMPLEMENTARY FEED

10 sachets x 25g

RESTORES HOMEOSTASIS OF THE BODY
PROVIDES ENERGY
SUPPLEMENTS DEFICIENCIES OF VIT. C
BCAA COMPLEX (LEUCINE, ISOLEUCINE, VALINE), L-GLUTAMINE
FLAVOR OF LIVER

Supplementary food for dogs and cats regulating the body's water and electrolyte balance. When mixed with water, it forms an isotonic solution.

Glucose increases the absorption of macro-elements and water as well as providing easily digestible energy. Electrolytes contain salts that dissociate into ions, facilitating the transmission of nerve impulses in the body. Rosehip fruit extract supplements any vitamin C deficiency. BCAA complex (Leucine, Isoleucine, Valine), L-glutamine provide the amino acids necessary for proper regeneration and muscle development. The addition of liver powder improves the taste, which makes animals more willing to accept the preparation.

Feeding Guide: 1 sachet (25 g) per 15 kg b.w. - dissolve the preparation in water or mix with food. Naturally cloudy product.

Ingredients: glucose, dried beef liver, potassium chloride, sodium chloride, magnesium lactate, wild rose fruit extract.

Additives per 1 kg: amino acids: 3c381 Isoleucine 25 g, 3c382 L-leucine 50 g, 3c370 valine 25 g, L-3c451 glutamine 50 g.

Analytical Composition: crude protein 22.3 g, crude fibre: 0.2 g, crude fat: 2.3 g, crude ash 11.1 g, calcium 0.1 g, magnesium 5.5 g, sodium 0.2 g, potassium 0.2 g.

LESPEWET COMPLEMENTARY FEED

SUPPORTING THE FUNCTIONING OF THE URINARY SYSTEM
+ LESPEDEZA CAPITATA

Lespewet The ingredients of the feed have a beneficial impact on the urinary tract. They support the functioning of the kidneys through a diuretic effect.

Use: administer directly or with the feed – 1 tab. / 3 kg body weight / day. If necessary, the number of tablets can be doubled or the product can be applied for a longer time.

Ingredients: product from the processing of plants – from Lespedeza capitata, maltodextrin, processed animal protein (beef liver).

Additives per 1 kg: Technological: Stabilisers: E460 microcrystalline cellulose 292.3 g. Thickeners: E470b magnesium stearate 20.5 g.

Analytical Composition: crude protein 12.6%, crude fibre 29.2%, crude fat 2.2%, crude ash 3.9%.

ZN-CYNK COMPLEMENTARY FEED

DELIVERS ZINC FOR SKIN AND COAT

Zn-Cynk complementary feed that improves: skin function, keratinization process, development and functioning of sebaceous glands and coat quality. The product is a tasty treat thus animals consume it willingly. Recommendations: Administer in increased hair loss, brittle, matt and dry coat. Protects the liver from increased accumulation of copper.

Use: administer at least 1 hour before feeding:

-skin and coat issues: dogs and cats - ½ piece per 10 kg b.w. – 2 times a day for 4 weeks

- liver protection: dogs and cats – 1 piece per 10 kg b.w. – 2 times a day for 4 weeks

Caution: in prolonged periods of use consult a veterinarian.

Can be used in dogs and cats with cardiac and renal insufficiency.

Ingredients: calcium carbonate, processed animal protein (of swine origin).

Additives per 1 kg: Nutritional: trace elements: zinc gluconate 64,66 g.

Analytical constituents: Analytical constituents: crude protein 11,8%, crude fiber 23,7%, crude oils and fats 4%, crude ash 12,4%.

COMPLEMENTARY FOODS

PROVIDING THE RIGHT AMOUNT OF VITAMINS AND MINERALS. KEEPING ANIMALS IN GOOD HEALTH THROUGHOUT THEIR LIVES. REGULAR ADMINISTRATION IS ESSENTIAL DURING PREGNANCY, LACTATION AND CONVALESCENCE. TASTY AND AROMATIC. EASY TO ADMINISTER.

MILVET
COMPLETE MILK REPLACER FOR PUPPIES AND KITTENS

- BOTTLE + TEATS INSIDE THE PACK
- REPLACES THE MOTHER'S MILK
- CAN BE ADMINISTERED STRAIGHT AFTER BIRTH
- SUPPLIES ENERGY, VITAMINS AND MINERALS

Milvet is a complete milk substitute, which perfectly replaces natural breast milk. It provides easily digestible protein and fat. Feeding milk replacer to nursing dogs and cats can increase production of their own milk. It provides puppies and kittens with necessary energy, vitamins and other nutrients. Milvet completely covers requirements for minerals and vitamins of growing animals. It is easy to digest and can be fed straight after birth. It is intended for puppies and kittens reared without mothers, in case of insufficient amount of milk produced by the mother, as a feed supplement during the weaning process, during the period of convalescence or increased effort (e.g. hunting).

Use: determine the portion of the preparation according to the table on the packaging. Pour one portion of the preparation into the bottle, then add two portions of boiled water at about 60 ° C - 1: 2 ratio. Mix vigorously. Cool to 37 ° C. For the first 15 days of life, feed through a teat and then switch to a bowl. After the 4th week of life, during the gradual transition to solid feed, add powder to the feed.

Ingredients: skimmed milk powder, milk fat, whey protein concentrate, whey powder, soy lecithin
Analytical ingredients: crude protein 30.0%, crude fiber 0.0%, crude fat 20.0%, crude ash 6.0%
Additives per 1 kg: Nutritional: vitamins: 3a672a vitamin a 25 000 iu, 3a671 vitamin d3 2 000 iu, 3a700 vitamin e 60 mg, 3a820 vitamin b1 20 mg, 3a vitamin b2 40 mg, 3a831 vitamin b6 15 mg, 3a vitamin b12 (cyanocobalamin) 0,08 mg, 3a841 calcium d-pantothenate 46 mg, 3a316 folic acid 0,8 mg, 3a314 niacin 25 mg, 3a890 choline chloride 1000 mg, 3a370 taurine 2000 mg. trace elements: 3b108 iron(ii) chelate of glycine hydrate 100 mg, 3b201 potassium iodide 1,6 mg, 3b405 copper(ii) sulphate pentahydrate 15 mg, 3b503 manganous sulphate monohydrate 66 mg, 3b603 zinc oxide 160 mg, 3b801 sodium selenite 0,25 mg. amino acids: 3c301 dl-methionine 2000 mg.

WITA-VET COMPLEX 1g

COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
GROWTH | WORK | VITALITY | PREGNANCY
JUNIOR+ ADULT | CA/P 1.3

Complementary feed – mineral for daily use with dogs of all breeds, puppies and adult dogs fed ready-made or home-made food. Increases vitality and improves condition. Recommended for pregnant and lactating bitches, recovering dogs and breeding, working dogs.

Use: Puppies 1 tab. / 10 kg bw / 1 time per day.
Adult dogs 1 tab. / 10 kg bw / 1 time per day.

Ingredients: dicalcium phosphate, processed animal protein (beef liver), brewer's yeast – dead (from *Saccharomyces cerevisiae*), magnesium oxide.

Additives per 1 kg: Dietary: Vitamins: 3a672a vitamin A 2000 mg, 3a671 vitamin D3 0.125 mg, 3a700 vitamin E 2500 mg, 3a300 vitamin C 10000 mg, 3a314 niacin 1500 mg, 3a841 pantothenic acid 7500 mg, 3a820 vitamin B1 750 mg, 3a vitamin B2 (riboflavin) 750 mg, 3a831 vitamin B6 100 mg, 3a890 choline chloride 3000 mg, 3a880 D-biotin 50 mg, 3a316 folic acid 40 mg, 3a vitamin B12 (cyanocobalamin) 40.15 mg. Amino acids: 3.2.3 L-lysine HCl 2000 mg, 3c3.6.1 L-arginine 2000 mg. Trace elements: 3b104 iron sulfate 7-hydrate 4743 mg, E4 copper sulfate 5-hydrate 500 mg, 3b201 potassium iodide 4560 mg, 3b605 zinc sulfate monohydrate 250 mg, 3b502 manganese oxide 130 mg.

Analytical Composition: Calcium 13.3%, sodium 0.2%, phosphorus 9.2%.

EFADERM-E

COMPLEMENTARY FEED

COAT
SKIN

Efaderm-E improves skin condition in skin inflammation or excessive hair loss. Its use helps to keep the skin and coat in good condition.

Use: administer directly or mix with food: -1capsule/10kg of body weight/day.

Recommended period of use: up to 2 months. It is advisable to consult a veterinarian before use.

Ingredients: fish oil bovine gelatin, glycerin.

Additives per 1 kg: technological: antioxidants: 1b306(i) natural tocopherol extracts 13420 mg.

Analytical constituents: crude protein 18,6%, crude fiber 0%, crude oils and fats 70,9%, crude ash 0%.

WITA-VET junior+adult

COMPLEMENTARY FEED

GROWTH
PREGNANCY
LACTATION
VITALITY

Wita-Vet Junior+Adult is intended for puppies, bitches and pregnant as well as nursing cats, convalescing dogs, dogs intended for breeding and show dogs as well as animals subject to prolonged effort. The product is also used for poor appetite and with older animals. The ingredients contained in the food have a beneficial influence on the general metabolism of the body and bone mineralization, they facilitate proper functioning of sebaceous glands and help to keep the skin supple and the coat shiny.

Ingredients: propylene glycol, acetylmethionine, magnesium gluconate, sodium chloride,

Analytical components: moisture 85.8%, crude protein 1.38%, methionine 0.8%, crude ash 0.2%, sodium 0.05%, crude oils and fats 0.0%, crude fibre 0%, 1-litre additives: vitamin a 900 000 iu, vitamin d3 200 000 iu, vitamin e 10g, vitamin b1 3,7g, vitamin b2 350 mg, vitamin b6 2,4g, vitamin b12 50 mg, vitamin pp 6g, vitamin k3 3g, biotin 10 mg, calcium pantothenate 10,3 mg, vitamin c 2,5 g, choline chloride 6 g, iron (ferric chloride) 125 mg, copper (copper chloride) 140 mg, manganese (manganese chloride) 123 mg.

COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
GROWTH | WORK | VITALITY | PREGNANCY
JUNIOR + ADULT | CA/P 2

Complementary feed – mineral for daily use in dogs of all breeds, puppies and adult dogs fed ready-made or home-made food. Increases vitality and improves condition. Recommended for pregnant and lactating bitches, recovering dogs and breeding, working dogs.

Use: Puppies 1 tab. / up to 15-20 kg bw / 1 time per day.
Adult dogs 1 tab. / up to 15-20 kg bw / 1 time per day.

Ingredients: dicalcium phosphate, tricalcium phosphate, processed animal protein (beef liver), magnesium oxide, calcium carbonate, fatty acid salts, magnesium salts of organic acids (magnesium stearate).

Additives per 1 kg: Dietary: Vitamins: 3a672a vitamin A 831.3 mg, 3a671 vitamin D3 318.8 mg, 3a700 vitamin E 3080 mg, 3a710 vitamin K3 1000 mg, 3a300 vitamin C 1530 mg, 3a314 niacin 1520 mg, 3a841 calcium D-pantothenate 670 mg, 3a890 choline chloride 870 mg, 3a820 vitamin B1 246.9 mg, 3a vitamin B2 185 mg, 3a831 vitamin B6 50 mg, 3a880 biotin 13.1 mg, 3a vitamin B12 670 mg. Amino acids: 3c3.6.1. DL-methionine 6500 mg, 3.2.3. L-lysine HCl 1080 mg. Trace elements: 3b103 iron sulfate monohydrate 408.8 mg, 3b405 copper sulfate pentahydrate 12.5 mg, 3b201 potassium iodate 32.8 mg, 3b605 zinc sulfate monohydrate 77.2 mg, 3b503 3b502 manganese oxide 40 mg.

Analytical Composition: Calcium 28.1%, sodium 0.1%, phosphorus 9.9%.

WITA-TONYL COMPLEMENTARY FEED

GROWTH
PREGNANCY
NURSING
CONVALESCENCE

Wita-Tonyl provides vitamins necessary to meet nutritional requirements of small animals. The product is intended to be used during growth, pregnancy and nursing. It has a beneficial influence on older, tired or convalescing animals and in case of poor appetite. Hydrolysed liver extract provides B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, Wita-tonyl positively affects functioning of the body. Vitamins improve metabolism, support immune processes of the body, aid regeneration of epithelium and skin, participate in bone mineralization and regulate calcium and phosphorus balance.

Use: mix with food: - rabbits 3-5 drops / day; - guinea pigs, hamsters, mice 1-2 drops / day; - turtles 1 drop / week / 100 g; - dogs and cats up to 5 kg 5 drops / day; - dogs 5 - 15 kg. 10 drops / day; - dogs 15 - 30 kg m.c. 15 drops / day; - dogs 30 - 45 kg m.c. 20 drops / day; - dogs above 45 kg m.c. 25 drops / day.

Ingredients: propylene glycol, processed animal protein

Additives per 1 kg: Nutritional: vitamins: 3a672a vitamin A 10 000 000 IU, 3a670a vitamin D3 1 000 000 IU, 3a700 vitamin E 30 000 IU, 3a820 vitamin B1 1 800 mg, 3a vitamin B2 (riboflavin) 2 000 mg, 3a841 calcium D-pantothenate 6 000 mg, E3a831 vitamin B6 6 000 mg, 3a vitamin B12 (cyanocobalamin) 30 mg, 3a314 niacin 30 000 mg. Technological: emulsifiers: E484 glyceryl polyethyleneglycol ricinoleate 135 g. Preservatives: E200 sorbic acid 1,5 g, E330 citric acid 0,5 g.

Analytical components: crude protein 5.6%, crude fiber 0%, crude fat 6.2%, crude ash 0.3%, moisture content 71.6%.

WITA-VET SIERŚĆ COMPLEMENTARY FEED

SHINY COAT
HEALTHY SKIN

Wita-Vet Coat for dogs and cats helps to improve the quality of coat. It is particularly recommended during shedding periods. It also helps to compensate for nutritional deficiencies and satisfies the needs of convalescing animals. An addition of hydrolysed liver extract provides B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, Wita-Vet Coat positively boosts body functions. Vitamins support immunological and metabolic processes of the body.

Use: mix with food:

- dogs and cats < 5 kg of body weight – 5 drops/day
 - dogs and cats 5-15 kg of body weight – 10 drops/day
 - dogs 15-30 kg of body weight – 15 drops/day
 - dogs 30-45 kg of body weight – 20 drops/day
 - dogs > 45kg of body weight – 25 drops/day
- 1 ml contains 20 drops.

Ingredients: propylene glycol, processed animal protein

Additives per 1 kg: Nutritional: Vitamins: 3a672b vitamin A 800 000 UI, 3a700 vitamin E 20 g, 3a481 calcium D-pantothenate 8 g, 3a831 vitamin B6 4 g, 3a880 biotin 500 mg, 3a315 niacinamide 8 g. Trace elements: 3b401 copper(II) diacetate monohydrate 100 mg, 3b601 zinc acetate dihydrate 3000 mg.

Analytical elements: crude protein 1,7%, crude fiber 0%, crude fat 2,7%, crude ash 0,4%, moisture content 86,8%.

WITA-VET COMPLEX 8g

COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
GROWTH | WORK | VITALITY | PREGNANCY
JUNIOR + ADULT | CA/P 2

Complementary feed – mineral for daily use for dogs of all breeds, puppies and adult dogs fed ready-made or home-made food. Increases vitality and improves condition. Recommended for pregnant and lactating bitches, recovering dogs and breeding, working dogs.

Use: Puppies: 1 tab./ up to 20 kg bw / 1 time a day
Adult dogs: 1 tab./ up to 30 kg bw / 1 time a day

Ingredients: Dicalcium phosphate, processed animal protein (beef liver), brewer's yeast – dead (from *Saccharomyces cerevisiae*), calcium carbonate, magnesium oxide. **Additives per 1 kg:** Dietary: Vitamins: 3a672a vitamin A 68.8 mg, 3a671 vitamin D3 12.5 mg, 3a700 vitamin E 2500 mg, 3a300 vitamin C 2000 mg, 3a314 niacin 1500 mg, 3a841 pantothenic acid 1000 mg, 3a820 vitamin B1 150 mg, 3a vitamin B2 (riboflavin) 150 mg, 3a831 vitamin B6 20 mg, 3a890 choline chloride 600 mg, 3a880 D-biotin 10 mg, 3a316 folic acid 8 mg, 3a vitamin B12 (cyanocobalamin) 5000 mg. Amino acids: 3.2.3 L-lysine HCl 400 mg, 3c3.6.1 L-arginine 400 mg. Trace elements: 3b104 iron sulfate 7-hydrate 327 mg, E4 copper sulfate 5-hydrate 50 mg, 3b201 potassium iodide 10.6 mg, 3b605 zinc sulfate monohydrate 20 mg, 3b502 manganese oxide 18 mg.

Analytical Composition: calcium 21.0%, sodium 0.1%, phosphorus 10.7%.

WITA-VET JOINTS

COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
JOINT STRENGTHENING
TREAT
1 tab. 4g/40kg

Wita-Vet Joints Complementary feed supports the proper functioning of the joints. Recommended for dogs with mobility problems. Can be given to young dogs during the period of intensive growth. The ingredients contained in the product – chondroitin, glucosamine, devil's claw, fish collagen, methylsulfonylmethane (MSM) and hyaluronic acid – strengthen the function of the joints and support their mobility and flexibility. Rosehip extract provides vitamin C, which is involved in the synthesis of joint cartilage collagen.

Use: 1 tablet a day per 40 kg of weight.

Active ingredients in 1 tablet per 40 kg: fish collagen 565 mg, devil's claw 565 mg, glucosamine sulfate 750 mg, chondroitin sulfate 750 mg, msm (Methyl – Sulfonyl – Methan) 280 mg, rosehip extract (vitamin C) 170 mg (120 mg), hyaluronic acid 50 mg.

Ingredients: chondroitin sulfate, glucosamine sulfate, fish collagen, devil's claw extract, cellulose, methylsulfonylmethane (msm), dicalcium phosphate, rosehip extract, processed animal protein (beef liver), hyaluronic acid, magnesium stearate.

Additives per 1 kg: Technological: silica 10 g.

Analytical Composition: Crude protein 24.2 g, crude fibre 8.5 g, crude fat 1.3 g, crude ash 11 g.

WITA-VET SENIOR

COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
IMMUNITY | VITALITY | SIGHT | TREAT

Wita-Vet Senior Complementary feed for dogs over 8 years of age. Beneficial for weakened animals and to improve vitality. Contains minerals, vitamins that boost energy, maintain vitality and protect the body against free radicals. Lutein keeps eyesight in good condition. Coenzyme Q10 stimulates immunity and strengthens the heart function. Vitamin E is involved in the metabolism of unsaturated fatty acids, preventing the formation of free radicals. Vitamin C protects cells from harmful metabolic products. Participates in the synthesis of hormones.

Use: 1 tab. / up to 10 kg bw / 1 time a day

Ingredients: dicalcium phosphate, processed animal protein (beef liver), maltodextrin, lutein (plant origin *Tagetes erecta* L), coenzyme (Q10).

Additives per 1 kg: Dietary: Vitamins and pro-vitamins: 3a700 vitamin E 108 g, E300 vitamin C (L-ascorbic acid) 73 g. Amino acids and their salts: 3c3.6.1. L-arginine 41 g. Mixture of trace elements: E8 selenium (sodium selenite) 18 mg. Technological: cellulose 100 g.

Analytical Composition: crude protein 18.2 g, crude fibre 24.1 g, crude fat 7.8 g, crude ash 10.4 g, calcium 8.61 g, phosphorus 6.4 g.

WITA-VET COAT 2G COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
REDUCES SHEDDING
SHINY COAT | HEALTHY SKIN

Wita-Vet Coat complementary feed – mineral recommended for daily use for dogs of all breeds, puppies and adult dogs fed ready-made or home-made food. Reduces shedding. Recommended for dry, dull and damaged coats. The ingredients in the feed help restore skin suppleness, shine, colour and resilience of the coat. They regulate the sebaceous glands and help to keep the skin moisturised. When preparing dogs for dog shows, start application 3 weeks before the show.
Use: 1 tab / up to 10 kg bw / 1 time a day

Ingredients: Dicalcium phosphate, processed animal protein (powdered beef liver), brewer's yeast – dead (from *Saccharomyces cerevisiae*), soya lecithin, magnesium salts of organic acids (magnesium stearate).

Additives per 1 kg: Dietary: Vitamins: 3a672a vitamin A 1040 mg, 3a700 vitamin E 19180 mg, 3a314 niacin 5230 mg, 3a841 calcium D-pantothenate 4795 mg, 3a vitamin B2 (riboflavin) 520 mg, 3a831 vitamin B6 260 mg, 3a880 D-biotin 218 mg, Amino acids: 3c391 L-cystine 29000 mg. Trace elements: 3b405 copper sulfate pentahydrate 50 mg, 3b201 potassium iodide 47 mg, 3b605 zinc sulfate monohydrate 5300 mg.

Analytical Composition: calcium 14.5%, sodium 0.1%, phosphorus 10.9%.

WITA-VET COAT COMPLEMENTARY FEED

DAILY DOSE OF VITAMINS AND MINERALS
REDUCES SHEDDING
SHINY COAT | HEALTHY SKIN

Wita-Vet Coat complementary feed for cats for use during the shedding period, for dry and damaged fur and when preparing animals for shows. The ingredients restore skin elasticity, giving shine, colour and resilience to the coat. They regulate the sebaceous glands and help to keep the skin hydrated. Exceptionally tasty product, easily accepted by animals.

Use: Administer directly or mix with the feed.

Cats up to 4 kg – 1 tab. / once a day

Cats over 4 kg – 2 tabs. / once a day

When preparing cats for shows, start 3 weeks before the planned show. Use until the coat and skin condition is perfect. Administer directly or mix with the feed.

Ingredients: processed animal protein (beef liver), brewer's yeast – dead (from *Saccharomyces cerevisiae*), crude (soy) lecithin.

Additives per 1 kg: Vitamins: 3a672a vitamin A 103 mg, 3a700 vitamin E 30 g, 3a825iii vitamin B2 3 g, 3a841 calcium D-pantothenate 3 g, 3a315 niacinamide 30 g, 3a831 vitamin B6 3.6 g, 3a880 biotin 77 mg, 3a370 taurine 12.5 g.

Amino acids: 3c301 DL-methionine 50 mg. Trace elements: 3b605 zinc sulphate monohydrate 27.6 g, 3b201 potassium iodide 277 mg, 3b405 copper(II) sulphate pentahydrate 2.7 g. Technological: binder – silica.

Analytical Composition: crude protein 34.0%, crude fibre 1.0%, crude fat 11.0%, crude ash 9.0%.

EKTOZIN

HYGIENE OF THE EYES AND EYELIDS

50 ml

ALLEVIATES SYMPTOMS ASSOCIATED WITH CONJUNCTIVITIS
MOISTURISES THE EYE SURFACE AND SOOTHES INFLAMMATION
ENSURES PROTECTION OF THE EPITHELIAL CELLS
ECTOIN, CENTAUREA CYANUS FLORAL WATER

Ektozin is a veterinary dermocosmetic, which alleviates symptoms associated with the irritation of the conjunctiva and supports the natural moisturising of the eyes and eyelids. It helps the removal of contaminations from the conjunctival sac. The ectoin contained in the product is a naturally existing substance. Its objective is to protect cells from the harmful effects of external factors, soothe inflammations and to ensure the protection of epithelial cells.

Use: moisturise the eye with a saturated compress or apply several drops of the fluid into the conjunctival sac. Now remove any redundant fluid. Rinse the eyelids as well. Apply as needed, even every day.

INCI: AQUA, CENTAUREA CYANUS FLORAL WATER, ECTOIN, SODIUM CHLORIDE, BENZALKONIUM CHLORIDE, SODIUM METHYLPARABEN, ORTOFOSFORIC ACID

OPTEX

WASHING SOLUTION FOR EYES AND EYELIDS

SOOTHES SYMPTOMS OF IRRITATION
MOISTURIZES EYES AND EYELIDS

Optex is a veterinary dermo-cosmetic that soothes conjunctival irritation and helps to retain natural moisture in the eyes and eyelids. It also helps to remove the impurities accumulated in the conjunctival sac.

Indication for use: eye and eyelid hygiene.

Precautions: discontinue use in case of intolerance.

Use: moisten a swab and carefully wet the eyes or apply a few drops of the liquid into the conjunctival sac. Remove its excess. Wipe the eyelids. Use when necessary, even every day.

INCI: AQUA, CENTAUREA CYANUS FLORAL WATER, SODIUM CHLORIDE, BENZALKONIUM CHLORIDE, SODIUM METHYLPARABEN, ORTOFOSFORIC ACID, CI 42090

100 ml

VETASEPTOL

CLEANSING DROPS FOR EYES AND NOSE

EYES AND NOSE HYGIENE
REMOVAL OF IMPURITIES FROM THE CONJUNCTIVAL SAC
ELIMINATES IRRITATION IN CONJUNCTIVITIS AND NASAL MUCOSA

Vetaseptol drops that relieve conjunctival irritation, reduce nasal discharge and soothe swollen eyelids (palpebral edema). They help to retain natural moisture in the eyes and eyelids and aid in the removal of dirt accumulated in the conjunctival sac.

Use: maintaining eye and nose hygiene, removing dirt from the conjunctival sac, soothing irritation of the conjunctiva and nasal mucosa.

Precautions: discontinue use in case of intolerance

Use: apply 1-2 drops into the conjunctival sac or nose, 4-6 times a day

INCI: AQUA, POTASSIUM GLUCONATE, MANNITOL, CHLORHEXIDINE DIGLUCONATE, DISODIUM EDTA

10 ml

OTOLAN

EAR WAX REMOVAL LIQUID FOR DOGS AND CATS

100 ml

REMOVES EAR WAX
REMOVES UNPLEASANT ODOUR
EASY APPLICATION
NATURAL INGREDIENTS

Otolan ear wax removal liquid for dogs and cats. Thanks to specially selected ingredients, thoroughly removes ear wax and impurities that accumulate in the ear canal, thus prevents bacterial growth in ear flap and ear canal.

Jojoba oil - moisturises and protects ear flap and ear canal from adverse external factors. Sweet almond oil - acts as a natural emollient thanks to unsaturated fatty acid content. Aids ear wax removal. Squalane - soothes irritation and inflammation. It facilitates natural restoration of ear canal and ear flap lining, as well as ear wax removal. Peach kernel oil - rich in omega-6 and omega-9 acids. Moisturises and soothes ear flap and ear canal. Vitamin E Aids ear flap and ear canal lining regeneration.

INCI: PARAFFINUM LIQUIDUM, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, SQUALANE, SIMMONDSIA CHINENSIS (JOJOBA) SEED OIL, PRUNUS PERSICA (PEACH) KERNEL OIL, TOCOPHEROL ACETATE

OTISEPTOL

EARS CLEANSING LOTION

REMOVES EARWAX
SOFTENS CALLOUSED SKIN

Otiseptol is a veterinary dermo-cosmetic containing ingredients that help to remove earwax from the external ear canal ear flap (pinna). They soften rough epidermis and thus make its removal easier and regeneration faster.

Indication for use: hygiene of external ear canal and ear flap.

Precautions: avoid contact with eyes.

Directions for use: apply 5-30 drops (depending on the size of the pet) of the emulsion into the ear canal. Distribute, gently rubbing the base of the ear and then remove excess liquid with a swab. At the same time, clean the interior of the ear flap. Repeat until the ear is fully cleaned. Depending on the amount of earwax, use once or twice a week.

INCI: AQUA, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, BENZALKONIUM CHLORIDE, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

100 ml

AKARYL-GEL

EAR CARE EMULSION

HYGIENE OF EXTERNAL EAR CANAL AND EAR FLAP

Akaryl-gel soothes irritation of external ear canal. Promotes natural regeneration of epidermis and helps to eliminate parasites.

Indication for use: hygiene of external ear canal and ear flap (pinna).

Precautions: stop using in case of intolerance.

Directions for use: apply a few drops into the external ear canal and ear flap. Gently rub the base of the ear. Remove excess emulsion and wash the ear again. Apply once a day for 7 days. After a week-long break, use again for the next 7 days.

INCI: AQUA, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, ALLANTOIN, JUNIPERUS COMMUNIS FRUIT OIL, LAVANDULA ANGUSTIFOLIA OIL, ORIGANUM (THYMUS CAPITATUS) ESSENTIAL OIL, CHAMOMILLA RECUTUTA FLOWERS OIL, MENTHA PIPERITA OIL, EUCALYPTUS RADIATA ESSENTIAL OIL, THYMUS VULGARIS FLOWER/LEAF OIL, ROSMARINUS OFFICINALIS LEAF OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

STOMA-GEL TOOTHPASTE

HEALTHY TEETH
FRESH BREATH

50 g

50 g

Stoma – gel is a veterinary dermo-cosmetic intended for teeth care. An addition of chlorhexidine prevents the development of undesirable bacterial microflora in the oral cavity, eliminates bad breath and keeps the teeth and gums clean. Due to the added flavouring, pets easily tolerate its application. Abrasives prevent the development of tartar and, when combined with feed particles, form an emulsion which removes it from the tooth surface.

The addition of a balanced beef aroma makes paste application a positive experience for pets. The scent not only facilitates acceptance of the paste, but also creates a pleasant experience for the animal during daily grooming. Animals eagerly submit to the treatment, which translates into regular use of Stoma-Gel paste and maintenance of a healthy mouth.

Indication for use: oral hygiene. **Directions for use:** 1-2 time(s) a week or every day, depending on the condition of teeth. Apply the paste using a toothbrush, finger or gauze. Rub in gently. Do not rinse.

INCI: AQUA, CALCIUM CARBONATE, CETEARETH-33, ALUMINUM SILICATE, CHLORHEXIDINE DIGLUCONATE, TITANIUM DIOXIDE, PARFUM

2 DENTAL CARE TOOTHBRUSHES FOR DOGS AND CATS.

Gentle and pleasant: finger rubber brushes are soft and gentle on the gums and teeth of dogs and cats. Gum massage: toothbrushes help stimulate blood circulation and keep your pet's gums healthy. Removes dental plaque: the elastic bristles effectively remove plaque and food remains. Prevention of oral diseases: preventing diseases related to the oral cavity, such as tartar, gum inflammation, and infections. Fresh breath: effective teeth cleaning helps to maintain fresh breath. Ergonomic design: finger rubber toothbrushes are easy to hold and control, making it easier for the owner to focus on thorough cleaning of the teeth. Integrated health care: by taking care of the health of your pet's dental health, you can improve their overall well-being by eliminating potential oral cavity-related issues.

ORAL HYGIENE LIQUID FOR DOGS & CATS

HELPS TO SUSTAIN CORRECT MICROFLORA IN THE MOUTH
FACILITATES TEETH AND GUM HYGIENE
ENSURES FRESH BREATH

Complementary feed for dogs and cats for maintaining good oral and dental hygiene. Natural rockrose and peppermint extracts support the healthy bacterial microflora of the oral cavity and thus ensure fresh breath.

Use: shake the bottle before use. Dissolve 5 ml of liquid in 250 ml of your pet's drinking water daily. Change the water in the bowl daily.

Ingredients: water, sorbitol, glycerol, peppermint extract, rockrose extract. additives: technological.

Additives per 1 kg: preservatives (e211, e202), colourant (e133).

Analytical constituents per 100 g of product: crude protein 0.1 g, crude fibre 0.1 g, crude oils and fats 0.3 g, crude ash 0.1 g, moisture 99.4 g.

SHAMPOO FOR WHITE COATS

200 ml

1000 ml

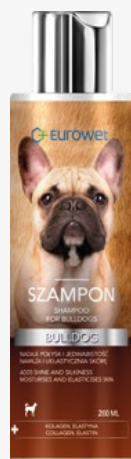

ADDS SHINE AND SILKINESS
BRIGHTENS COLOUR
+ CHAMOMILE, NETTLE, VITAMIN E

SHAMPOO FOR WHITE COATS The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts reduce hair loss and dandruff formation. Chamomile extract brings out the natural colour of the hair.

Indications: for light colour coat and skin care.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PROPYLENE GLYCOL, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, CHAMOMILLA RECUTITA FLOWER EXTRACT, URTICA DIOICA LEAF EXTRACT, TOCOPHEROL ACETATE, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

SHAMPOO FOR BULLDOGS

ADDS SHINE AND SILKINESS
MOISTURISES AND MAKES SKIN MORE ELASTIC
+ COLLAGEN, ELASTIN

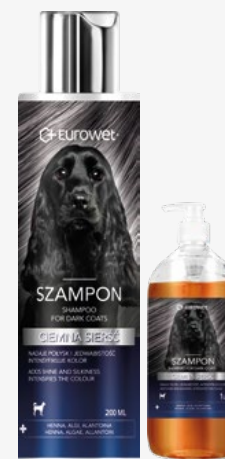

SHAMPOO FOR BULLDOGS The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft and shiny. Collagen regenerates, restores the skin's elasticity and hydration. Elastin soothes irritations, supports the processes of regeneration and reconstruction of the epidermis. It has a strong moisturizing effect.

Indications: coat and skin care.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, COLLAGEN, HYDROLYZED ELASTIN, PEG 4 RAPESEEDAMIDE, ALLANTOIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINON, CITRIC ACID

200 ml

SHAMPOO FOR DARK COATS

ADDS SHINE AND SILKINESS
INTENSIFIES THE COLOUR
+ Henna, Algae, Allantoin

SHAMPOO FOR DARK COATS The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts soften and elasticize the epidermis. Henna extract enhances the natural colour of the hair.

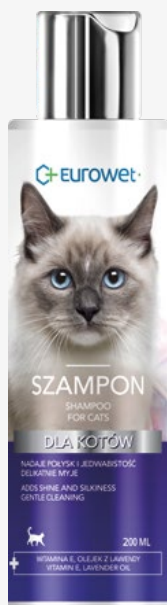

Indications: For dark coats and skin care.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, LAWSONIA INERMIS LEAF EXTRACT, PORPHYRA UMBILICALIS EXTRACT, CAESALPINIA SPINOSA GUM, SILICONE QUATERIUM-17, LAURETH-9, POLYSORBATE 20, PARFUM, ALLANTOIN, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

200 ml

1000 ml

SHAMPOO FOR CATS

200 ml

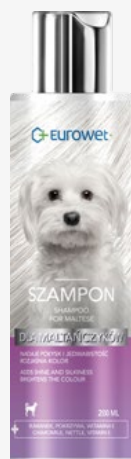

ADDS SHINE AND SILKINESS
GENTLE CLEANSING
+ VITAMIN E, LAVENDER OIL

SHAMPOO FOR CATS The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Additional ingredients moisturize the skin and coat.

Indications: coat and skin care.

INCI: AQUA, SODIUM LAURETH SULFATE, GLYCERIN, PEG 4 RAPESEEDAMIDE, COCAMIDOPROPYL BETAINE, SODIUM CHLORIDE, PARFUM, TOCOPHEROL, SILICONE QUATERIUM-17, LAURETH-9, LAVANDULA ANGUSTIFOLIA OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

SHAMPOO FOR MALTESE

ADDS SHINE AND SILKINESS
BRIGHTENS THE COLOUR
+ CHAMOMILE, NETTLE, VITAMIN E

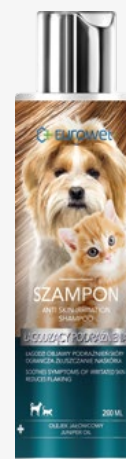

SHAMPOO FOR MALTESE The shampoo is formulated so that it's effective at washing the coat and easy to rinse. The coat becomes soft, shiny and easy to brush. Plant extracts reduce hair loss and dandruff formation. Chamomile extract brings out the natural colour of the hair.

Indications: long hair care.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PROPYLENE GLYCOL, PEG 4 RAPESEEDAMIDE, GLYCERIN, PEG-7 GLYCERYL COCATE, SILICONE QUATERIUM-17, LAURETH-9, CHAMOMILLA RECUTITA FLOWER EXTRACT, URTICA DIOICA LEAF EXTRACT, TOCOPHEROL ACETATE, POLYSORBATE 20, PARFUM, SODIUM CHLORIDE, SODIUM HYDROXIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

200 ml

ANTI SKIN-IRRITATION SHAMPOO

SOOTHES SYMPTOMS OF IRRITATED SKIN
REDUCES FLAKING
+ JUNIPER OIL

ANTI SKIN-IRRITATION SHAMPOO The shampoo has very good cleansing properties and is easy to rinse off. The juniper oil soothes irritated skin and reduces flaking.

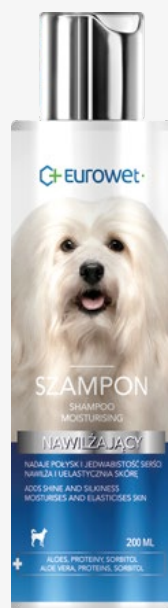

Indications: coat and skin care.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, UREA, PROPYLENE GLYCOL, ALCOHOL DENAT., ACHILLEA MILLEFOLIUM FLOWER EXTRACT, HUMULUS LUPULUS EXTRACT, MELISSA OFFICINALIS LEAF EXTRACT, FOENICULUM VULGARE FRUIT EXTRACT, CHAMOMILLA RECUTITA FLOWER EXTRACT, VISCUM ALBUM EXTRACT, SODIUM CHLORIDE, POLYSORBATE 20, JUNIPERUS OXYCEDRUS WOOD OIL, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

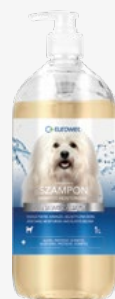

200 ml

MOISTURISING SHAMPOO

200 ml

1000 ml

ADDS SHINE AND SILKINESS
MOISTURISES AND MAKES SKIN MORE ELASTIC

INCI: AQUA, CETYL ALCOHOL, CETEARYL ALCOHOL, STEARALKONIUM CHLORIDE, PEG-20 STEARATE, SILICONE QUATERIUM-17, LAURETH-9, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, TOCOPHERYL ACETATE, PERFUM, CITRIC ACIDS, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

LEAVE-ON CONDITIONER

200 ml

1000 ml

- ADDS SHINE AND SILKINESS
- MAKES BRUSHING EASIER
- + BETAINE, MOISTURIZING COMPLEX

LEAVE-ON CONDITIONER Professional, revitalising leave-on conditioner for dogs and cats. Makes brushing easier, adds volume and improves hair condition. Prevents from the formation of matt and tangles. Perfect for all types of coat and hair. For static and frizzy hair that needs smoothing and styling. Contains active substances that build into hair structure, adding smoothness, moisture and glow.

Indications: coat and hair care.

Use: spray on the hair and brush.

INCI: AQUA, BETAINE, SILICONE QUATERNIUM-22, POLYGLYCERYL-3 CAPRATE, DIPROPYLENE GLYCOL, COCAMIDOPROPYL BETAINE, SODIUM LACTATE, SODIUM PCA, GLYCINE, FRUCTOSE, UREA, NIACINAMIDE, INOSITOL, SODIUM BENZOATE, LACTIC ACID, POLYSORBATE 20, PARFUM, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN

EAR CLEANSING EMULSION

- REMOVES WAX
- SOFTENS CALLOUS EPIDERMIS
- + ALMOND OIL

EAR CLEANSING EMULSION helps to remove excess wax from internal ear canal and from ear lobe. Softens and helps to eliminate calluses. Indications: ear care. **Use:** apply 5 - 30 drops (depending on the size of the animal) of the lotion to the ear canal. Spread by rubbing the base of the ear and then remove the excess with a swab. Clean the inside of the earlobe at the same time. Repeat until the ear is fully cleaned. Use once or twice a week, depending on the amount of earwax produced.

INCI: AQUA, CETEARYL ALCOHOL, GLYCERYL STEARATE, CETEARETH-20, CETEARETH-12, CETYL PALMITATE, PRUNUS AMYGDALUS DULCIS (SWEET ALMOND) OIL, GLYCERIN, BENZALKONIUM CHLORIDE, PARFUM, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE

100 ml

EYE AND EYELID CLEANSER

- SOOTHES SYMPTOMS OF IRRITATION
- MOISTURIZES EYES AND EYELIDS
- + CENTAUREA WATER

EYE AND EYELID CLEANSER the fluid soothes conjunctival irritation and facilitates the natural lubrication of eyes and eyelids. Helps to remove impurities from the conjunctival sac. Indications: eye and eyelid care.

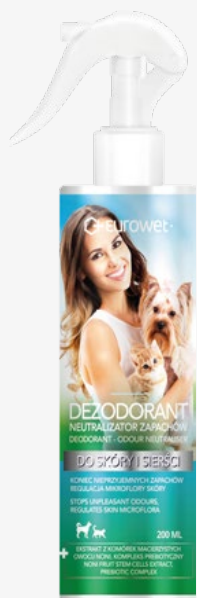

Use: wet the eye with a soaked pad or apply a few drops of the fluid directly to the conjunctival sac. Remove the excess and wash the eyelids. Apply according to need, even on a daily basis.

INCI: AQUA, CENTAUREA CYANUS FLORAL WATER, SODIUM CHLORIDE, BENZALKONIUM CHLORIDE, SODIUM METHYLPARABEN, ORTOFOSFORIC ACID, CI 42090

100 ml

DEODORANT- ODOUR NEUTRALISER

200 ml

NONI FRUIT STEM CELLS EXTRACT, PREBIOTIC COMPLEX
NO MORE UNPLEASANT ODOURS
REGULATES SKIN MICROFLORA

Effectively protects against formation of unpleasant odour on animal skin and coat, anal glands and ears. Innovative, natural composition based on Noni fruit stem cells extract and prebiotics prevents from unpleasant odour formation and growth of abnormal bacterial flora. Simultaneously, the spray does not interfere with natural skin function and has a positive effect on its condition.

Use: brush the coat against its natural direction. Spray evenly from a distance of 20 - 30 cm while spreading over the coat and brush again.

INCI: AQUA, POLYSORBATE 20, GLYCERIN, MORINDA CITRIFOLIA CALLUS CULTURE LYSATE, CITRIC ACID, MALTODEXTRIN, PARFUM, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN

GOLD SKIN AND COAT REGENERATOR COMPLEMENTARY FEED

ADDS SHINE AND SILKINESS
+ BIOTIN, VIT. A, B6, NICOTINIC ACID

GOLD SKIN AND COAT REGENERATOR Complementary feed for dogs and cats that improves the look of coat. It is particularly recommended during shedding periods. It also helps to compensate for nutritional deficiencies and satisfies the needs of convalescing animals. In addition, hydrolysed liver extract provides a number of B vitamins and haematopoietic agents. Due to the content of amino acids, such as isoleucine, leucine, methionine, phenylalanine, threonine, valine, it positively boosts body functions. Vitamins improve immunological and metabolic processes of the body.

Directions for use: mix with food: - dogs and cats < 5 kg of body weight – 5 drops/day - dogs and cats 5-15 kg of body weight – 10 drops/day - dogs 15-30 kg of body weight - 15 drops/day - dogs 30-45 kg of body weight – 20 drops/day - dogs > 45kg of body weight – 25 drops/day
1 ml contains 20 drops.

Composition: propylene glycol, products of animal origin. Additives per 1 kg: 3a672a vitamin A 2 g, 3a880 biotin 0,5 g, 3a831 vitamin B6 4 g, 3a314 niacin 8 g, 3a841 calcium D-pantothenate 8 g, E6 zinc gluconate 0,3 g.

Analytical elements: crude protein 0.3%, crude fiber 0%, crude fat 0.9%, crude ash 0.1%.

25 ml

PROTECTIVE SPRAY FOR PADS

SNOW AND SALT, HOT SURFACES, HARD GROUND,
SOOTHES SYMPTOMS OF IRRITATION
+ ALOE, CENTELLA ASIATICA

PROTECTIVE SPRAY FOR PADS veterinary dermocosmetic, nourishing and soothing damaged foot pads and stimulating the regeneration of the epidermis. Its ingredients regulate the skin microflora and have astringent properties.
Indications: regeneration of damaged foot pads and soothing of irritation.

INCI: AQUA, GLYCERIN, TRICHLOROACETIC ACID, PROPYLENE GLYCOL, CENTELLA ASIATICA EXTRACT, ALOE BARBADENSIS LEAF JUICE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

90 ml

PROTECTIVE SPRAY AGAINST FLEAS AND TICKS

100 ml

200 ml

PROVIDES EFFECTIVE ADDITIONAL PROTECTION AGAINST FLEAS AND TICKS
NATURALLY SAFE
+ NEEM OIL

The preparation helps to protect dogs and cats from fleas and ticks.

Use: brush the coat against its natural direction. Spray evenly from a distance of 20 - 30 cm while spreading over the coat (avoiding the eyes). Rub into the coat and skin. Apply once a week or according to need.

Storage: store in original packaging, keep away from children.

INCI: AQUA, POLYSORBATE 20, PEG 4 RAPESEEDAMIDE, MELIA AZADIRACHTA LEAF EXTRACT, PHENOXYETHANOL, ETHYLHEXYLGLYCERIN, SODIUM HYDROXIDE

PROTECTIVE SHAMPOO

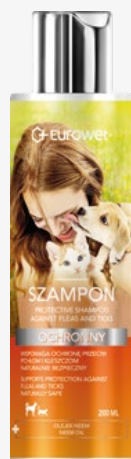

SUPPORTS PROTECTION AGAINST FLEAS AND TICKS
NATURALLY SAFE
+ NEEM OIL

PROTECTIVE SHAMPOO helps to protect dogs and cats against fleas and ticks. It also has excellent cleansing properties.

Indications: Coat and skin care.

Warning: While applying the product, use protective gloves. Avoid contact with eyes. If product accidentally gets into eyes, rinse thoroughly with warm water. Wash hands after every use. Do not use on dogs and cats younger than 3 months or on pregnant or nursing animals. To minimise the risk of the animal getting fleas or ticks, change its bed regularly. Store in original container, keep away from children.

INCI: AQUA, SODIUM LAURETH SULFATE, COCAMIDOPROPYL BETAINE, PEG 4 RAPESEEDAMIDE, GLYCERIN, MELIA AZADIRACHTA LEAF EXTRACT, SODIUM CHLORIDE, DMDM HYDANTOIN, METHYLCHLOROISOTHIAZOLINONE, METHYLISOTHIAZOLINONE, CITRIC ACID

200 ml

PROTECTIVE FOAM AGAINST FLEAS, TICKS

PROVIDES EFFECTIVE ADDITIONAL PROTECTION AGAINST FLEAS AND TICKS
NATURALLY SAFE
+ NEEM OIL

Foam helps to protect dogs and cats against presence of fleas, ticks and other insects on their coat.
